Note: In an effort to continue our commitment to quality care and help contain the increasing cost of prescription drug coverage, a formulary feature is included in your prescription drug benefit. A formulary drug is a FDA approved prescription medication reviewed by an independent Pharmacy and Therapeutics Committee brought together by Medco Health Solutions, Inc. Formulary drugs can assist in maintaining quality care while meeting your plan's cost containment objectives.

Benefits will be determined based on Medical Mutual's medical and administrative policies and procedures.

This document is only a partial listing of benefits. This is not a contract of insurance. No person other than an officer of Medical Mutual may agree, orally or in writing, to change the benefits listed here. The contract or certificate will contain the complete listing of covered services.

¹SuperMed Script contains the following:

- Rx Selections® Drug List: A list of drugs on the Rx Selections® formulary will be used.
- Generic Incentive: If the member or physician requests a brand-name drug and a generic equivalent exists, the member pays the generic copayment PLUS the difference between the cost of the generic drug and the brand-name drug.
- Home Delivery Incentive: When a member chooses to fill a prescription a fifth time at a retail pharmacy within 180 days, the member will pay twice the normal retail copayment.
