

MAGNIFY YOUR **IMPACT**

Net Impact Chapter Information

What Net Impact Chapters Do: Net Impact Chapters offer several “change initiatives” programs. These initiatives are strategically chosen for maximum impact – not only for having high potential to create change at one university, but also for having the potential to demonstrate that graduate business students can and will change the world through business.

Change Initiatives

- **Curriculum Change:** Helping students bring valuable CSR and social impact themes into the classroom in partnership with the U.N.’s Principles for Responsible Management Education (PRME)
- **Campus Greening:** Inspiring and equipping members to push their campuses towards a higher level of sustainability
- **Impact at Work:** Bringing sustainability to the workplace – relevant for part-time students
- **Nonprofit Capacity Building**
 - o Service Corps: Consulting to nonprofits on business issues
 - o Board Fellows: Providing hands-on nonprofit board experience for members and strategic support for nonprofits

How Net Impact Benefits Students: One of Net Impact’s primary goals is to help members find careers with meaning. Two of our most well known career services are the Career Expo at the Net Impact Annual Conference and our job board. Net Impact also offers in-depth calls to interact with industry leaders; weekly, monthly, and quarterly newsletters.
