# Accounting

**BACHELOR OF BUSINESS ADMINISTRATION (BBA)**

## Why Accounting?

Every organization needs accountancy to keep it properly functioning. The field of accounting continues to grow rapidly and its top students are in high demand. The Bachelor of Business Administration (BBA) in Accounting prepares students for **careers in business, government and public accounting**. It offers a background in business law, information systems and tax issues, giving students a solid foundation for leadership positions in business and industry.

The Accounting major at the Monte Ahuja College of Business is one of only 168 accounting programs worldwide that hold **Accounting Accreditation from AACSB International**, the hallmark of excellence in management education.

## The Program

The BBA in Accounting is a very challenging program that prepares students for post-graduation accounting careers. The curriculum is guided in part by an Advisory Board made up of top professionals from the accounting community.

Students can specialize in one of four areas within the field of accounting by concentrating their electives in their area of interest: **Public Accounting, Governmental or Institutional Accounting, Management Accounting, Internal Auditing or Information System Auditing**.

Students are encouraged to pursue internships and co-ops in order to enhance their academic preparation with real world experience. On average, 80 students per semester are placed in accounting internships.

Students who major in accounting can also prepare for the Ohio CPA examination.

## Student Organizations

In-class experience in accounting is complemented by the very active student organizations, **Beta Alpha Psi** and the **Accounting Association**. Both organizations offer opportunities to meet other students, as well as network with accounting professionals.

## FOUR-YEAR GRADUATION PLAN

The BBA program requires completion of **120 credit hours** of course work that includes university, college and Accounting major requirements. Adhering to the recommended sequence below provides a balanced workload and ensures that students will have the proper prerequisites and knowledge for maximum benefit of these courses. Students will graduate from the program as a well-rounded professional with functional knowledge of each major business discipline, with a focus on Accounting.

<b>TOTAL</b>	<b>15</b>

Accounting majors must obtain a minimum of a 2.50 grade point average among ACT 221 & 222. All other Accounting major courses require a final grade of "C" or higher or the course must be repeated. Students can choose a different accounting elective opposed to repeating the course, but ALL accounting core courses must be repeated if the final grade is below a "C".

- \*The Analytical Geometry and Calculus sequence (MTH 181-182) may be substituted for the Mathematics for Business Majors sequence (MTH 148-149).
- \*\*Before choosing electives, students should consult an advisor.
- (W) Counts as a Writing Across the Curriculum course for university graduation requirements (only if taken at CSU). Students must earn a grade of "C" or better in order to receive Writing Across the Curriculum credit.
