

Mathematical Concepts 2A/B/C

2A: Prerequisite: MTH 153. Intuitive differential calculus, derivatives, applications of derivatives.

2B: Prerequisite: MTH 154. Intuitive integral calculus, antiderivatives, the definite integral, applications, partial derivatives.

2C: Prerequisite: MTH 155. Probability, permutations, combinations, Bayes' Theorem.

May fulfill Math GenEd requirement. Please see an advisor.
