Tenure-Track Faculty Position in Computer Science
Department of Electrical and Computer Engineering
Washkewicz College of Engineering
Cleveland State University

The Department of Electrical and Computer Engineering at Cleveland State University invites applications for a tenure-track faculty position in Computer Science, to begin in August of 2015. Applicants should possess a doctoral degree in Computer Science, Computer Engineering, Software Engineering or a closely related field. Candidates in all areas of Computer Science will be considered though the department is particularly interested in areas of programming languages, high-performance computing, parallel computing, and machine learning. The successful candidate will teach both undergraduate and graduate courses in Computer Science, and will be expected to develop and maintain a strong, externally funded research program.

The department is the largest in the Washkewicz College of Engineering, with over 400 undergraduate students and over 250 graduate students. Current research areas include: Embedded systems, Human motion and control, Mobile computing, Network security and privacy, Programming languages, Software engineering, and Wireless sensor networks. We expect faculty to engage students at all levels in their research.

For full consideration, candidates must submit a cover letter, curriculum vitae (including names of at least three professional references), a statement of interests in teaching, and a research plan through the Human Resources website: http://www.csuohio.edu/offices/hrd/employment.html. Review of applications will begin February 25, 2015. Position remains open until filled.

CSU is a major urban university with partnerships with several industrial corporations and the NASA Glenn Research Center. The Washkewicz College of Engineering traces its roots back to 1923 as Fenn College and has since maintained its reputation for excellence in engineering education and research. The college was renamed in 2013 to Washkewicz College of Engineering in honor of the transformative gift from Donald and Pamela Washkewicz and the Parker Hannifin Foundation. The Department of Electrical and Computer Engineering offers doctoral and master's degrees and ABET-accredited bachelor's degrees. Faculty areas of expertise include digital systems, controls, power electronics, communications, computer networks, databases, mobile networks and security, software engineering, and embedded systems. Additional information about the department is available at http://www.csuohio.edu/ece.

CSU is an AA/EOE committed to nondiscrimination. M/F/D/V encouraged. Offer of employment is contingent on satisfactory completion of the University's verification of credentials and other information required by law and/or University policies or practices, including but not limited to a criminal background check. Hiring is contingent on maintaining existing levels of funding from the state of Ohio.
