The CSU Nursing Refresher Course is designed for nurses who wish to update their knowledge and skills in preparation for returning to employment in nursing. The program, now in its 37th year, has been taken by thousands of nurses in Ohio and beyond. While the main focus of the course is adult medical-surgical nursing, sessions also cover a review of nursing process, clinical decision-making, basics of electronic health records, wound/ostomy care, and specific considerations for care of the elderly. Topics covered include care of patients with respiratory, cardiovascular, renal, gastrointestinal, orthopedic, endocrine, and neurologic problems. A special session will also cover Ohio Law and Rules pertaining to nursing practice (Category A).

The course is an intensive learning experience consisting of classroom instruction, along with outside reading and studying. Weekly quizzes are given to facilitate learning and a comprehensive final examination helps to synthesize information learned. Selected resources and information will also be available through an online learning site (Blackboard). To successfully complete the course, you must attend at least 80% of the class sessions, take all quizzes/exams, complete online modules, participate in lab sessions, and complete an evaluation form. Those who successfully complete the course will earn 78 contact hours*, including two (2) hours of Category A. The course content meets the academic content requirements for reactivation of a nursing license through the Ohio Board of Nursing. Simulation experiences will be integrated into the course in the state-of-the-art School of Nursing classrooms and laboratory. You’ll also have the option to continue to practice and refresh your clinical skills during select open laboratory times.
