 Goal #1:

| Outcome Measures | Research Completed | Findings | Review | Actions | Improvements |
|---|--|--|---|--|---|
| #1 A machine-scored skill-oriented test will be given at the end of each of the core courses (IST 211, 221, 311, 321, 331, 341, 455). The test for each course | Tests administered each semester | Students perform below the 75% goal | All full-time IS faculty review all test results. | Attempt to determine causes of low scores; evaluate syllabi, teaching methods, etc | Increase emphasis on programming techniques and logic in IST 211. |
| #2 In IST 455 a comprehensive machine-scored test will be given which evaluates all core material. This test will be generated by the coordinators of the core courses from departmental databases; the same test will be given to every section of IST 455. This test is in addition to the skill-oriented test for material specific to IST 455 (Measure #1). Our goal is to have the mean score for the comprehensive test be 75% or greater. | Tests administered each semester | Because of low enrollment in the first offer-ings of the course, results are not yet statistically significant | N/A | N/A | N/A |
| #3 Surveys of alumni and employers to determine the degree to which graduates have technical skills appropriate for the workplace. | Because of logistic difficulties, work on this goal has been postponed indefinitely. | N/A | N/A | N/A | N/A |
| | | | | | |
| | | | | | |
