Thursday, April 15, 2:15-3:00 pm (See Hotel Floor Maps on Page 5)

Breakout Sessions 1-5
Management. The program's focus is on developing leadership skills in management information systems and operations, and its primary objective is to prepare graduates for leadership positions in business, technology, and other fields.

The program is offered at the University of Toledo, where it was established in 1995. The program's curriculum includes courses in management information systems, operations management, and business leadership. The program is designed to provide students with the skills and knowledge needed to succeed in leadership positions in a variety of industries.

Several departments on campus, including Information Technology, Business Administration, and Management, have contributed to the development of the program. Students will have the opportunity to work with faculty members from these departments to gain a comprehensive understanding of management information systems and operations.

In addition to classroom instruction, the program includes hands-on learning experiences, such as internships and case studies. These experiences will provide students with real-world experience and help them develop the skills needed for leadership positions.

The program is open to students who are interested in pursuing a career in management information systems or operations management. It is particularly well-suited for students who are interested in leadership roles in the business world.
Welcome to the University of Toledo, where we are dedicated to excellence in education. Our university is committed to providing a comprehensive education that prepares students for success in their chosen careers. We believe in fostering a collaborative learning environment that encourages innovation and critical thinking. Our faculty and staff are dedicated to supporting our students in achieving their academic and personal goals. We look forward to welcoming you to the University of Toledo and hope that you will find your time here both challenging and rewarding.
Robert Specker, The University of Toledo

Title: "Seawave Suite - Learning Anytime, Anywhere"

Abstract: Seawave Suite is an online learning platform with features such as discussion forums, quizzes, and a variety of learning resources. COMPLETION

Applicants for the 1992-1993 academic year who meet the eligibility requirements may apply for admission to the Graduate Program in Information Systems. Information about the program and application procedures can be obtained from the Office of Graduate Admissions, Graduate School, Oregon State University, Corvallis, OR 97331. The application deadline is February 1, 1993.

Applications are welcome from qualified candidates who have completed a bachelor's degree in a field related to information systems and who have demonstrated a strong ability to learn and apply business principles in the context of information systems.

The Graduate Program in Information Systems at Oregon State University is a two-year program that offers the following concentrations:

- Information Systems and Management
- Information Systems and Applications Development
- Information Systems and Information Technology
- Information Systems and Telecommunications

The program consists of 48 credit hours, including 36 credit hours in course work and 12 credit hours for the thesis or project. The program is designed for students who have completed a bachelor's degree in a field related to information systems and who have demonstrated a strong ability to learn and apply business principles in the context of information systems.

The application deadline is February 1, 1993.

A statement of purpose, a resume, and three letters of recommendation are required. The application fee is $50.00. Application materials should be submitted to the Office of Graduate Admissions, Graduate School, Oregon State University, Corvallis, OR 97331.

A detailed list of the required courses is available from the Office of Graduate Admissions, Graduate School, Oregon State University, Corvallis, OR 97331.
NOTE: The LAST bus will leave the museum for the return trip to the hotel at 9:00 PM. Don't miss it.

The entire evening, which is exactly our intention, is spent at the First of the evening. We think you're going to enjoy the suite, for the rest of the evening, will have missed its restaurant and lounge into a hospitality dinner is over, the bus will return you to the hotel, with which is the largest collection of glass in the world, the Toledo Museum of Art. This museum is considered to be one of the best museums of art in the country, and is known for its quality of collections. In Thursday evening, everyone will return to the Toledo Museum of Art.
