DIGITAL DELIVERY: CONVERGENCE OR CHAOS

OHEC 2002 CONFERENCE

Crown Plaza Hotel, Columbus, Ohio
April 8-10, 2002
and examined in this address, and personal changes shape the future and the economy will be explored. Look more, test and perfect in all areas. From these social, economic changes, we will all be expected to thrive in the industries of digital technology and we will all be expected to be contributors. Everyone contributes to the global economy through innovation and technology. Education and personal income are connected into the hands of the entrepreneur. Ericsson’s are now establishing a new wireless application on 2G000.

The buzz in technology circles is about the convergence of multiple

ECONOMICS AND EDUCATION

Applications in Teaching & Learning: A Comprehensive Look At Portals

Portals: A Comprehensive Look At Portals

Learning Portal (2008) and the world of the Open University, the Learning Portal is an innovative and creative approach to delivering education and training. The Learning Portal provides a unified and consistent interface for accessing learning resources across a range of platforms, including desktops, laptops, tablets, and mobile devices.

- The Learning Portal offers a range of features, including personalized learning paths, adaptive learning, and collaboration tools.
- It supports a variety of learning formats, including video, audio, text, and interactive content.
- The Learning Portal also provides access to a range of learning resources, including courses, tutorials, and workshops.

- The Learning Portal is designed to be user-friendly and intuitive, providing a seamless learning experience.
- It supports a range of learning styles, including visual, auditory, and kinesthetic learners.

- The Learning Portal is accessible to learners of all ages and abilities, providing an inclusive and equitable learning experience.
- It supports lifelong learning and personal development, enabling learners to achieve their learning goals.

- The Learning Portal is designed to support organizations and institutions in delivering effective and engaging learning experiences.
- It supports a range of learning outcomes, including knowledge transfer, skill development, and personal growth.

- The Learning Portal is designed to be scalable and flexible, supporting the needs of learners and organizations as they evolve.
- It supports continuous improvement and adaptation, ensuring that learning outcomes are relevant and up-to-date.

- The Learning Portal is designed to be cost-effective and efficient, providing a cost-effective and efficient learning solution.
- It supports a range of delivery models, including traditional classroom-based learning and online and blended learning.

- The Learning Portal is designed to be accessible and inclusive, providing learners with disabilities with equal access to learning resources.
- It supports a range of learning environments, including traditional classroom-based learning and online and blended learning.

- The Learning Portal is designed to be user-friendly and intuitive, providing a seamless learning experience.
- It supports a range of learning styles, including visual, auditory, and kinesthetic learners.

- The Learning Portal is designed to be scalable and flexible, supporting the needs of learners and organizations as they evolve.
- It supports continuous improvement and adaptation, ensuring that learning outcomes are relevant and up-to-date.
