

## The Morley Medal

The Morley Medal is given annually by the Cleveland Section of the American Chemical Society to a chemist or chemical engineer for outstanding contributions to chemistry while working within a 250 mile radius of Cleveland. A bronze medal and \$2000 are presented at the section's May meeting. The award is named for Edward W. Morley whose accomplishments are outlined separately herein. The purpose of the award is to recognize outstanding contributions to chemistry through achievements primarily in research, but also for important contributions in teaching, engineering, administration, public service, and service to humanity or to industrial progress.
