Job Description

Analytical Chemists

Ricerca Biosciences, LLC, an international drug development company part-nering with biotechnology and pharmaceutical companies worldwide, is seeking several individuals to join our Analytical Chemistry group. Positions include HPLC chromatogra-phers in our stability, method development, in-process, and quality control groups.

The successful candidates will focus on various analytical activities including HPLC analysis in a GLP/ GMP environment. Training will be provided to ensure compliance. Expanded work opportunities will be available with increased experience.

Required academic backgrounds range from B.S. to Ph.D., with skills ranging from entry level to highly experienced. All positions require the ability to manage multiple projects in a dynamic team environment, and excellent documentation and oral communication skills. Familiarity with FDA (GLP and cGMP) regulations is a plus!

We offer a competitive salary along with a comprehensive benefit plan.

Resumes should be
