

SENIOR CHEMIST

Day-Glo Color Corp. has an opening for a Senior Chemist.

Primary duties include participation in research and development programs focusing on new and innovative pigment and dye technologies, working with sales and marketing groups targeting new markets, customers, and potential acquisitions.

The ideal candidate will be able to function in a laboratory environment to design and conduct various polymer and pigment synthesis reactions, as well as aiding in production and scale up activities.

Requirements Include: Post –graduate degree in chemistry or 5+ years relevant organic/polymer synthesis experience and the ability to work in a team-oriented environment. Experience with chemical manufacturing a plus.

DayGlo offers excellent benefits, 401K and pension plan.

Interested candidates should send resume to:

Day-Glo Color Corp.
4515 St. Clair Avenue
Cleveland, OH 44103
