

The Department of Chemistry at John Carroll University (<http://chemistry.jcu.edu>) invites applications for a one year Visiting Assistant Professor position beginning August 2010, with a possibility of renewal up to three years. A Ph.D., preferably in physical chemistry, is required. The successful candidate will teach 12 credits of a combination of physical chemistry and introductory level chemistry lecture courses and lab courses each semester. The Department is ACS certified, well equipped in chemical and biochemical instrumentation, has a vibrant undergraduate research program, and is housed in the new Dolan Center for Science and Technology. John Carroll University is a privately controlled, co-educational, Catholic and Jesuit University located in the eastern suburbs of Cleveland. A CV, undergraduate and graduate transcripts, three letters of recommendation, and a statement of teaching philosophy should be sent to Dr. Michael P. Setter, Chair, Department of Chemistry, John Carroll University, University Heights, OH 44118. Review of completed applications will begin immediately. Electronic versions may be sent to msetter@jcu.edu for consideration until paper copies arrive. John Carroll University is an Affirmative Action, Equal Opportunity Employer. The university is committed to diversity in the workplace and strongly encourages applications from women and minorities.
