

ANALYTICAL CHEMIST

Associate Scientist

RICERCA BIOSCIENCES, LLC, a drug discovery and development company partnering to biotechnology and pharmaceutical companies worldwide, providing drug discovery and development services, agrochemical and specialty chemicals as well as an internal discovery pipeline, has an opening for an Associate Scientist in our Analytical Group.

The successful candidate will provide support and guidance to Pilot Plant Engineers, Kilo Lab and bench chemists during benchmarking, scale-up and Pilot Plant processing. The ideal candidate will be able to develop and validate HPLC and GC methods for in-process support. The qualified candidate should be able to interface with internal and external clients and present relevant data at appropriate times.

This is a challenging hands-on position which requires one to complete multiple projects at once, while working in a fast pace and demanding environment. Depending on project timelines, some shift and/or weekend support may be required. Training will be provided to ensure compliance. Expanded work responsibilities will be available with increased experience.

Required qualification is a B.S. or M.S. in Chemistry. 1 to 5 years of relevant chemistry experience is preferred, in addition to experience in a GLP/GMP environment. We offer a competitive salary along with a comprehensive benefit plan.

Qualified candidates may send their resume to:
