

**Cleveland State University
Occupational Therapy Program
Level II Fieldwork
MIDTERM FAX BACK FORM**

STUDENT

Occupational therapy academic programs are expected to monitor the quality of the clinical education experiences provided to their students. Taking time to reflect on your experiences is important to your professional development and your feedback regarding your experience at this fieldwork site is important to the CSU Fieldwork Program.

Please respond to the questions on the next page (both sides) following your midterm evaluation review session with your fieldwork educator.

COMPLETION OF THIS FORM IS MANDATORY

Return the form to:

Susan Levy Wayne, MEd, OTR/L

by **FAX** at **(216) 687-9316**

or

include all information in an email to s.wayne@csuohio.edu

**All information must be received
*before the end of the your 7th week of fieldwork.***

Please contact me directly at (216) 687-3570 if you have any concerns regarding your experience. I would also be happy to make site visits upon request.

Thank you!

Student Name: _____ Facility: _____

Fieldwork Educator Name: _____ Phone Number: _____

1. Did you participate in a formal midterm evaluation and review?
Yes No If no, why not?

2. Did your perceptions of your progress/performance match your supervisor=s comments on your progress/performance to this point? If not, how did they differ?

3. What goals did you set for the first half of fieldwork?

Were these goals met? If not, which ones were not met and what hindered their attainment?

Have you discussed this with your supervisor?

4. What goals have you set for the second half of fieldwork?

How have you made your supervisor aware of your goals?

5. In what area(s) of your professional development have you seen the most growth since beginning your fieldwork?

6. How would you describe your relationship with your supervisor(s)?

7. How is your supervision designed?

Is this an effective method for you?

Yes No If no, why not?

If not, have you discussed this with your fieldwork educator?

Yes No

If no, why not?

If so, what changes will be made to improve the effectiveness?

8. Any additional comments?

THANK YOU!!
