

SOCIETY OF PHYSICS STUDENTS (SPS) EVENT

Physics Department Spring Semester Welcome Party

Abstract:

SPS cordially invites you to our Spring Semester Pizza Party. Come to meet physics majors/minors, graduate students and faculty. Learn about ongoing research projects at the Physics Department and how you can find your summer employment by being involved in them. Get introduced to the Society of Physics Students (SPS) and possibly join it. Our short program will highlight the multiple strengths of our department. It will include: welcoming messages from the SPS president, Fred Hussein and the Physics Department Chair, Dr. Miron Kaufman; short introduction to departmental research and summer employment opportunities by our faculty; of course, a lot of pizza, and, possibly, some ice-cream made in front of you using Liquid Nitrogen.

WHERE

**SI – 117 (room next to the Physics
Computer Lab)**

WHEN

**Noon- 1pm
Thursday, February 8, 2007**
