

The Society of Physics Students Presents a
Physics Alumni Series Seminar:

Shining a Light on Viruses:

A Physicist's Adventures in Biology

Krista graduated from CSU in 2011 and is currently pursuing her PhD in physics at Carnegie Mellon University. She will be discussing her **research on the survival of viruses**, her **experiences as a physics graduate student**, and her **opportunities to travel through Europe** as a scientist.

Krista Freeman

Where: SR 151

When: 11:30-12:15

**Thursday, November
12, 2015**

Pizza and Soda provided
