Grant Application Form: (Downloaded as a Word document)

<http://www.irex.org/application/regional-policy-symposium-application>

IREX, in collaboration with the Woodrow Wilson International Center for Scholars' Kennan Institute (WWC), is pleased to announce its 2011 Regional Policy Symposium, "Gender in the 21st Century Eastern Europe and Eurasia." The research symposium, supported by the United States Department of State (Title VIII Program), will bring American junior and senior scholars and members of the policy community together to examine and discuss gender and women's issues in Eastern Europe and Eurasia from multi-disciplinary perspectives. Topics may include: education, migration, trafficking, women in politics, domestic violence, and economic opportunities, among others. Junior scholars will be chosen based on a national competition to present their current research on the topic of the Symposium. Grants will be awarded to approximately ten junior scholars. The Symposium will involve two full days of reviews of current research projects, roundtable discussions, and the development of policy recommendations. Applicants must be a US citizen either currently enrolled in an MA, MS, MBA, JD, or PhD program or have held a graduate degree for 10 years or less. Applicants who hold an academic post must be pre-tenure.

Grant Provisions:

- Round-trip airfare (provided by IREX through its travel office) and/or surface transportation from anywhere in the United States to the symposium site.
- Meals and accommodations for the duration of the symposium.
- To receive more information on the 2011 Regional Policy Symposium, please send e-mail inquiries to Symposium@irex.org

NIJ Ph.D. Graduate Research Fellowship (GRF)

National Institute of Justice (NIJ)

Department of Justice (DOJ)

Program URL: <http://ncjrs.gov/pdffiles1/nij/sl000965.pdf>

Funding Opportunity Number:

NIJ-2011-2821

Deadline

Feb 28, 2011 by 11:59PM EST

Category Explanation:

Research and Evaluation

Expected Number of Awards: 50
Amount of Award: \$25,000
CFDA Number(s): 16.562 - Criminal Justice Research & Development - Grad Research Fellowships
Cost Sharing or Matching Requirement: No

The program provides awards for research on crime, violence, and other criminal justice-related topics to accredited universities that support graduate study leading to research-based doctoral degrees. NIJ invests in doctoral education by supporting universities that sponsor students who demonstrate the potential to successfully complete doctoral degree programs in disciplines relevant to the mission of NIJ. Applicants sponsoring doctoral students in policy and health sciences or in an education field are eligible to apply only if the doctoral research dissertation is in an NIJ-supported discipline (i.e., social and behavioral sciences, operations technology, information and sensors research and development, and investigative and forensic sciences). The GRF program is intended to support universities that sponsor students who are in the final stages of graduate study. Awards are granted to successful applicants in the form of a grant to cover a doctoral student fellowship. For assistance with any other requirement of this solicitation, contact Marie Garcia, Social Science Analyst, at 202-514-7128 or by E-mail to Marie.Garcia@usdoj.gov.

National Defense and Science Engineering Fellowships

Department of Defense

Administered by:

American Society for Engineering Education (ASEE)

1818 N Street N.W., Suite 600

Washington, DC 20036

E-mail: ndseg@asee.org,

Telephone: (202) 649-3831

Fax: (202) 265-8504

Deadline: January 4, 2011 (*Verify on the web site)

URL: www.asee.org/ndseg/

Fellowships are awarded to outstanding students planning to conduct graduate study and research leading to a doctoral degree in science and engineering. The awards provide a 12-month stipend, fees, and tuition for three years.

Founder Region Women's Fellowships

Soroptimist International Foundation

Soroptimist International

87 Glisson Road

Cambridge

CB1 2HG

United Kingdom

E-mail : hq@soroptimistinternational.org

URL: www.soroptimistinternational.org

Deadline: February 1, 2011 (*Verify on the web site)

Program URL: www.sifounderregion.org

The fellowship program is open to outstanding graduate women, preferably in the last year of study, who are working toward the doctoral degree.

Academic Exchange Awards

International Research and Exchanges Board (IREX)

2121 K Street NW, Suite 700

Washington DC, 20037

Telephone: 202 628 8188

Fax: 202 628 8189

E-mail: irex@irex.org Deadlines: Various – visit the web site

URL: www.irex.org

Deadline: March 1, 2011

US citizens who are affiliated full time with a North American college or university are eligible for these academic exchange programs in the Middle East and North Africa, Europe, Eurasia, and Asia.

Young Researchers Invited to Apply for Society in Science: The Branco Weiss Fellowship

Branco Weiss URL: <http://www.society-in-science.org/?CFID=10560470&CFTOKEN=18475161>

Suisse Federal Institute of Technology/Zurich: <http://www.society-in-science.org/>

Society in Science: The Branco Weiss Fellowship provides young researchers with a generous personal grant designed to provide them with the freedom to work on whatever topic they choose for a maximum duration of five years. The program is coordinated by the Swiss Federal Institute of Technology Zurich but the financing can be used at any institution worldwide.

The fellowship is geared primarily to natural scientists and engineers at an early stage of their post-doctoral studies; however, representatives of other disciplines may also apply if they are able to present an appropriate project. Applicants whose fields of interest are not represented by current or former Branco Weiss fellowships are strongly encouraged to apply and will be looked upon favorably.

Applicants must provide evidence of outstanding scientific achievement to qualify. Fellows are expected to break across boundaries between different disciplines, to establish stimulating links, and to develop new approaches. Ideally, fellows pursue an unconventional project involving societal aspects.

In the evaluation of candidates, emphasis will be given to personality more than the proposed study. However, awardees will be expected to design a courageous and scientifically rigorous research project that benefits from the unique freedom offered by the Branco Weiss Fellowship. The proposed inquiry must meet high standards of scientific quality as well as have a clear and distinct social component.

The five-year fellowship will be awarded in the form of an initial two-year (Pioneer Phase) and a subsequent three-year (Exploitation Phase) installment. At the end of the second year, a review will be conducted to evaluate the originality of the project and the productivity of the postdoctoral fellow. Fellows have the opportunity to work at an academic institution of their choice anywhere in the world. The fellows meet as a group at least once a year to present and discuss their research projects with a selected scientific and public audience.

Up to five fellowships are awarded every year. For complete program information, visit the Society in Science Web site at the above Branco Weiss URL.
