

# CRITICAL THINKING FACULTY LEARNING COMMUNITY

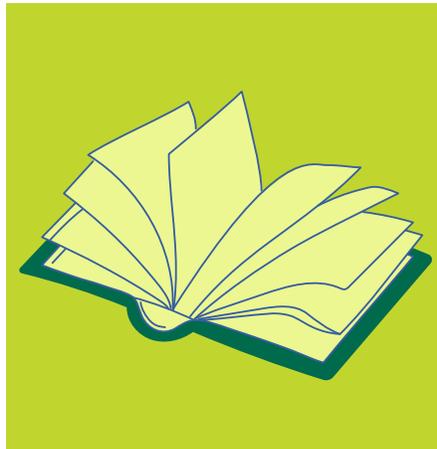

Critical Thinking is one of the two most commonly adopted Skill Areas for General Education courses.

What exactly is Critical Thinking if it is taught across such a wide variety of fields and disciplines?

How can it be taught effectively?

This FLC is intended primarily for faculty who teach a General Education course/s that have Critical Thinking as a Skill Area, however all interested faculty are welcome to join.

Faculty who participate through to December will receive a stipend.

COMMON HOUR  
ZOOM MEETINGS  
TUES 9/07 &  
10/19

ASYNCHRONOUS  
IN BLACKBOARD  
THRU FALL 2021
