Applying Filters When Searching For Students

To make viewing your students easier, Starfish allows for more precise filtering of student lists based on several different characteristics and attributes.

Log into Starfish using the "Starfish" link in your Advisor or Instructor tab in CampusNet.

2. Click on the menu options button in the top-left corner of the screen. Select 'Students'. Click on the "My Students" tab. Select your connection to the students whom you wish to view (by role or course). You can also begin with "All My Students" which, for many, will display all students.

3. To filter your students, select "Edit Filters". For best filtering results, clear all filters by clicking on the "X" next to "Edit Filters". Now that you've cleared your filters, you can now click "Add Filters:"
