

TorsionAir™ Seating Collection

flexing comfort and contemporary style

Designed by Giancarlo Piretti

Torsion Air is a contemporary interpretation of the classic Torsion seating collection and Torsion on the Go!

By combining the patented torsion flex mechanism with a fresh, mesh back, Torsion Air provides a lighter visual impression as well as breathability and exceptional comfort

This innovative seating collection includes nesting chairs, simple-to-use task chairs, and stack chairs in three frame styles: four leg, sled base, and cantilevered sled base.

- upholstered seat with mesh back
- full family of seating including armless, arms, or tablet options
- orders accepted May, 2011 with order shipment late June, 2011

lighter visual effect
breathable mesh back
flex-back comfort
