

## Show your Cleveland State spirit with a viking-themed pumpkin!

- 1) Purchase a standard pumpkin carving toolkit. Clean out a pumpkin and tape the stencil onto the surface.
- 2) From the tool kit, use the pointed tool to poke holes all the way through the pumpkin, along the outline of Magnus's helmet and the black shapes, following the template.
- 3) Remove the stencil from the pumpkin. Only cut out the large black shapes; do not cut along the outside dotted line.
- 4) Place a light inside the pumpkin and display your Viking Pride!
