

Access / List Engage 365 Apps

If your account is eligible to have access to Microsoft App (applications), then follow the directions listed below to access the apps.

These apps are assigned based upon the account owner's association with the university and, as such, the available apps may differ from other accounts. These apps are only accessible when the Engage 365 account is sign in via a browser.

To view the apps available for your Engage 365 account, sign into your account via a supported browser. In the upper left corner select the App icon. This will list all apps assigned to your account upon its activation and that are available for your use. The apps listed when first opened, will not include all the apps available to your account, only those which are used the most. To view all apps available for your account, select "All apps".

If there you wish to select a specific app to always appear on the initial app listing, select “All Apps” as noted above, hover your mouse over the app you wish to post on the initial listing. Three dots will appear next to the app listing, select the dots and then select “pin to launcher”
