## **TEACHING:**

I have over 30 years of teaching experience at both the undergraduate and graduate level. I have chaired or served on numerous PhD and Masters' graduate committees across a range of departments including Economics, History, Resource Economics and Policy, Spatial Information Science and Engineering, School of Marine Sciences, and Wildlife Ecology.

## **RESEARCH EXPERIENCE AND INTERESTS**

My main research interests are in applied demography and socio-economic change and their implications for public policy. Current work is focused on the impact of demographic, economic and workforce trends and projections for higher education. At the Council of Graduate Schools I am working on two, major areas – career pathways of graduate students and the impact of student debt on graduate (and undergraduate) education.

Recent research has been in human dimensions of the environment. A core focus was to develop theoretical understanding of how human activity propagates on regional and continental scales and to find ways to make quantitative predictions of future impacts on the basis of policy-relevant indicators. Other basic research has been into underlying environmental and socio-economic processes, involving three applied programs funded by major federal grants: 1) the effects of atmospheric deposition in watersheds in Maine; 2) a comparative study of the policy implications of sea level rise in California and Maine, and 3) policy responses to greenhouse gas emissions in Maine. Each of these projects had strong policy applications. See Grants, Publications and *Presentations* for the scope of these projects.

An earlier area of research was in the field of social policy. My research in this area initially involved work on rural poverty trends and childhood hunger in Maine. Later work was on rural children's mental health, examining the risk and protective factors for children growing up in rural areas to inform Maine and other rural mental health policy for children. Later work in this area was an analysis of Maine's workforce, examining demographic changes and how these changes affect the nature of the workforce and economic development, particularly the ability to retain and attract industry.

My early research was in the field of historical demography, particularly migration. This work examined *inter alia* the influence of natural resources on migration outflows nationally and regionally. The research

Deirdre M. Mageean, PhD

yielded multiple publications and culminated in a 1997 book, *Peasant Maids - City Women* published by Cornell University Press.

## **GRANTS AND AWARDS:**

(Principal Investigator, unless otherwise stated)

Cumulative funding/awards to date: \$3,072,452

Title: Measuring the Economic Damages from Oil Spills in Maine's Marine Economy  
Funding Agency: Maine Oil Spill Advisory Committee (MOSAC) through Maine Sea Grant Program  
Principal Investigators: Co-PI with Jonathan Rubin, PI, and Kevin Boyle.  
Award: \$122,599  
Time Frame: 2003-2005

Title: Biocomplexity Incubation Grant: Predicting the Dynamics of Human-Dominated Landscapes: Metapopulation Models for Ecosystems with Sharp Edges (a planning grant to allow 9 scholars from 5 institutions and 3 countries to prepare for a full grant to the N.S.F. Biocomplexity Initiative, 2002)  
Funding Agency: National Science Foundation  
Principal Investigators: R. Swihart (Purdue University)  
Award: \$56,253  
Time Frame: 2001-2002

Title: Workforce and Tax Structure Affecting Economic Development in Maine  
Funding Agency: U.S. Department of Commerce/Economic Development Administration  
Award: \$200,000  
Time Frame: 2001-2002

Title: Epidemiology of Child Psychopathology in Maine: Fieldwork & Policy Analysis  
Funding Agency: National Institute of Mental Health & Research Triangle Institute  
Principal Investigators: Co-PI with Suzanne Hart & Charlie Morris  
Award: \$1,375,443  
Time Frame: 1998-2000

Title: Hierarchical Modeling for Integrated Environmental Assessments  
Funding Agency: National Science Foundation Division of Mathematical Sciences: Program Statistics  
Principal Investigators: Co-PI with Raymond O'Connor  
Award: \$130,000  
Time Frame: 1998-1999

Title: Impacts of Rising Sea Level on Coastal Population in California and Maine Funding  
Agency: NOAA Sea Grant Program  
Award: \$18,256  
Time Frame: 1998

Title: Impacts of Rising Sea Level on Coastal Population in California and Maine: An Initial Study  
Funding Agency: NOAA Sea Grant Program

Deirdre M. Mageean, PhD

Award: \$4,000  
Time Frame: 1997

Title: Maine Response to Greenhouse Gas Emissions (Phase 11 extension)  
Funding Agency: U.S. Environmental Protection Agency, (sub-contract from Maine State Planning Office)

Award: \$18,543  
Time Frame: 1997

Title: Understanding Watershed-Scale and Regional Response to Changing Atmospheric Deposition  
Funding Agency: National Science Foundation  
Principal Investigator: Co-PI with Steve Kahl, Ivan Fernandez, Stephen Norton, Steven Ballard and Lindsey Rustad  
Award: \$698,687  
Time Frame: 1997-2000

Title: A Strategic Environmental Assessment of University of Maine System  
Funding Agency: Chancellor's Office, University of Maine System  
Award: \$41,115  
Time Frame: 1996

Title: Maine Response to Greenhouse Gas Emissions, Phase 11, Developing a State Action Plan  
Funding Agency: U.S. Environmental Protection Agency, (sub-contract from Maine State Planning Office)  
Award: \$78,102  
Time Frame: 1995-1996

Title: Incidence of Childhood Hunger in Maine: Multiple Funding Agencies (see below)  
Funding Agency: Multiple (see below)  
Principal Investigator: Co-PI with Bill Whitaker  
Award: \$280,094  
Time Frame: 1992-1993  
Grants received: Jessie B. Cox Charitable Trust  
Bingham Program  
Kraft General Foods  
Public Welfare Fund  
State of Maine Division of Community Services  
U. S. Department of Health & Human Services  
Annie E. Casey Foundation  
Stephen King Foundation

Title: Competitive award to attend NSF Workshop on Exploratory Data Analysis, California State University, Fullerton  
Funding Agency: National Science Foundation  
Award: \$2,000  
Time Frame: 1991

Title: Teaching laboratory in sociological methods

Funding Agency: National Science Foundation  
Award: \$23,000  
Time Frame: 1990

Title: Evaluation of WIC Program funding  
Funding Agency: Women in the Curriculum Summer Grant, University of Maine  
Award: \$1,000  
Time Frame: 1988

Title: Settlement and Dispersal of Irish migrants in St. John, New Brunswick, 1850-1870  
Funding Agency: University of Maine, Canadian Studies Centre  
Award: \$1,000  
Time Frame: 1988

Title: University of Maine, Faculty Scientific Equipment & Book Fund  
Award: \$1,360

Title: Stipend as 1 of 4 co-investigators studying Women in the migration process at the turn of the twentieth century  
Funding Agency: Volkswagen Foundation  
Award: \$17,000  
Time Frame: 1987

Title: Emigration from North-West Ireland to North America  
Funding Agency: Social Science Research Council  
Award: \$6,000  
Time Frame: 1983
