BACHELOR OF BUSINESS ADMINISTRATION (BBA)

Why Finance?

The financial decisions of an organization are some of the most important areas of its daily functions and future growth. Assisting individuals with the management of personal financial choices and goals can be professionally rewarding. The Bachelor of Business Administration (BBA) in Finance introduces students to the **theories, concepts, practices and advances in financial analysis and financial management**.

Students graduating with a major in Finance can qualify for positions in the financial departments of industrial and commercial enterprises, banks, savings and loan associations, real estate firms, insurance companies, other financial institutions and government and public agencies.

The Program

The BBA in Finance is a challenging program where students study the risk assessment and accounting for risk, the efficient management of funds, the selection of alternative sources of financing, the financial adaptation of the firm and the individual to a dynamic environment, the fundamental and technical valuation of various types of securities, and the determination of appropriate investment policies for the firm and the individual. Most courses include International Finance topics.

Students in the Finance major can **specialize in Management of Financial Institutions, Investment and Security Management, Real Estate Finance or Financial Management**. The faculty work closely with the region's financial service firms and the finance departments of area businesses in placing Finance majors in professional internships and co-op positions.

Finance Faculty also encourages Finance majors to pursue the **Chartered Financial Analyst (CFA)** designation. We offer, in partnership with Stalla, a comprehensive and detailed CFA Exam preparation course. This time-proven successful format provides students with the knowledge and confidence to pass the CFA exam, greatly expanding their career opportunities.

Student Organizations

The in-class experience is complemented by the very active department organizations – the **Financial Management Association (FMA)** and the **KeyBank Student-Managed Investment Fund (SMIF)**. Membership in FMA enables students to gain leadership experience, participate in various professional and volunteer activities and attend conferences. SMIF is a \$400,000+ fund managed by a select group of qualified accounting and finance majors and MBA students.

A minimum grade of “C” or higher is required in all Finance major related courses, including FIN 351. If a grade below a “C” is earned the course(s) must be repeated.

- *The Analytical Geometry and Calculus sequence (MTH 181-182) may be substituted for the Mathematics for Business Majors sequence (MTH 148-149).
- **Before choosing electives, students should consult an advisor.
- (W) Counts as a Writing Across the Curriculum course for university graduation requirements (only if taken at CSU). Students must earn a grade of “C” or better in order to receive Writing Across the Curriculum credit.
