

Management & Labor Relations

The DBA program in Management prepares students for academic careers in management at the college or university level or for conducting and managing research in the corporate sector. The Management doctoral curriculum is intellectually rigorous and covers a broad range of topics in management – from theory building and research methodologies to seminars in theory, organizational behavior, strategic management, human resource management, and organizational development.

Prerequisites

The preparation for the DBA program in Management is a Master in Business Administration (MBA) degree or its equivalent. If the applicant does not have an MBA or equivalent from an AACSB accredited school, then the applicant should have a background in management, organizational behavior, and labor relations, in addition to preparatory courses in finance and economics.

Specifically, a candidate must have completed the following prerequisites or their equivalents:

MLR 501	Management and Organizational Behavior
MLR 601	Human Resources and Labor Relations
MBA 660	Integrative Business Strategy
FIN 601	Financial Policies
ECN 503	Economic Concepts
