

Washkewicz College of Engineering

ELECTRICAL AND COMPUTER ENGINEERING DEPARTMENT

Visiting Professor Positions at Cleveland State University Electrical Engineering and Computer Science

The Department of Electrical and Computer Engineering at Cleveland State University invites applications for visiting professors in the areas of electrical engineering and computer science. The positions begin in August 2015 and end in May 2016.

Responsibilities include teaching at both the undergraduate and graduate level, and student advising. The teaching requirement is between 12 and 16 credit hours (three or four courses) per semester. Salary will be commensurate with education and experience.

Minimum Qualifications:

- 1) Earned doctoral degree in electrical engineering, computer engineering, computer science, or a related field.
- 2) Ability to teach and interact with both undergraduate and graduate students.
- 3) Good skills in computer-based design and analysis tools.
- 4) Hands-on experience in electrical engineering or computer science.
- 5) Teaching experience.

Preferred Qualifications:

- 1) Bachelor's and master's degrees in electrical engineering, computer engineering, or computer science (in addition to the minimum qualification of an earned doctoral degree).
- 2) Industrial experience.
- 3) Good communication skills.
- 4) Research experience.

For full consideration, candidates must submit a cover letter, curriculum vitae (including names of at least three professional references), and a statement of interests in teaching, through the Human Resources website: <http://www.csuohio.edu/offices/hrd/employment.html>. Review of applications will begin February 25, 2015. Position remains open until filled.

CSU is a major urban university with partnerships with several industrial corporations and the NASA Glenn Research Center. The Washkewicz College of Engineering traces its roots back to 1923 as Fenn College and has since maintained its reputation for excellence in engineering education and research. The college was renamed in 2013 to Washkewicz College of Engineering in honor of the transformative gift from Donald and Pamela Washkewicz and the Parker Hannifin Foundation. The Department of Electrical and Computer Engineering offers doctoral and master's degrees and ABET-accredited bachelor's degrees. Faculty areas of expertise include digital systems, controls, power electronics, communications, computer networks, databases, mobile networks and security, software engineering, and embedded systems. Additional information about the department is available at <http://www.csuohio.edu/ece>.

CSU is an AA/EOE committed to nondiscrimination. M/F/D/V encouraged. Offer of employment is contingent on satisfactory completion of the University's verification of credentials and other information required by law and/or University policies or practices, including but not limited to a criminal background check. Hiring is contingent on maintaining existing levels of funding from the state of Ohio.
