

WASHKEWICZ COLLEGE OF ENGINEERING – ESC 120 WAIVER REQUEST

Process Flow for this form: Student to College UPC
Effective March 10, 2010

ESC 120: Introduction to Engineering Design is a required course for all incoming freshmen and transfer students in engineering. ESC 120 offers an introduction to the practice of engineering design, use of hand tools, reverse engineering, the creative process, and the various career paths within engineering. The course is intended for engineering students, and any other student interested in understanding the basics of engineering design and learning about engineering as a possible career.

Requirements:

1. A minimum of one year full-time technical experience from industry (accompanied by supporting documents) prior to joining the College.
2. Propose an engineering course to substitute for ESC120. This course can be a transferred engineering course that is not used to fulfill your degree requirement. Alternatively, you can take an independent study with a professor to work on a design project for two credit hours.

Name: _____ CSU ID: _____ Date: _____

Address: _____

Major: _____

Place of employment: _____

Length of full-time employment in this capacity: _____

Job title: _____

Brief Job description: _____
