## CAMPUS: Site/Civil Engineering Cooperative Education & Internship Opportunity - Fall 2018 (29841)

Cleveland, OH

**Work for an Industry Leader**  
Challenging Projects & Dynamic Work Environment  
Extensive Training Program  
Community Service Opportunities

Langan is an award-winning ENR Top 500 Design Firm that offers integrated engineering and environmental services for both public and private sector clients at sites located throughout the United States and abroad. Langan receives numerous recognitions for its technical expertise as well as its work environment, including Zweig Group's Best Firms to Work For, Glassdoor's Employees' Choice Award – Best Places to Work, NJ Biz Best Places to Work and Business of the Year – 50 Fastest Growing Companies, Hartford Business Journal's Best Places to Work in CT, and Pittsburgh Business Times - Best Places to Work in Western PA. Visit our website for more information about our awards and recognitions.

**Langan has an outstanding cooperative education and internship opportunity available in the Site/Civil discipline of our Cleveland, OH office. The successful candidate will have an enthusiastic, can-do attitude, will work on exciting projects and most importantly, work in a team environment while gaining practical experience!**

**The successful candidate will assist with discipline related office work and technical aspects of projects. This is a great opportunity to get exposure to site feasibility studies which may involve field work, technical report preparation and calculations, pre-construction conditions documentation, design plans and specifications. (Hours of operation: 8:30 am – 5:15 pm Monday through Friday.)**

**Equal Opportunity Employer**

**Testimonials from past Interns and Coops:**

*"My Langan experience has been above and beyond what I initially expected to gain out of a co-op experience. I was given the opportunity to set my own bar for how much I wanted to learn and challenge myself, and I feel like this experience will be one of the most beneficial parts of my college education".*

*"An internship at Langan will season you to be an ideal candidate for employers coming out of college. To me this experience was defined by the employees really taking time to make sure that I was evolved and constantly learning with each individual project".*

*"Langan is the "gold standard" when it comes to internships for students in my graduate program. I was immediately welcomed into the team, trained to participate in field work, and given the opportunity to directly contribute to interesting projects. I have already recommended the internship program to my peers and hope to return one day as a full time employee".*
