

∞ Kaitlyn Kolarik ∞

B.S. – Nursing, May 2015

∞ What have you been doing since graduation? ∞

After graduation, I started working at University Hospitals on a neuro unit and after working there for about 2 years went to the Seattle area to work as a travel nurse. Now I'm back in Cleveland and working in the surgical intensive care unit at Metro.

∞ What was the best part of being the Honors College and how did your experience here help prepare you for success? ∞

Being in the Honors College was truly one of the best opportunities I've ever been given. Not only was I introduced to other like-minded and motivated students who have become life-long friends, but it also allowed me to be able to earn my BSN with absolutely no debt. This prepared me for success by allowing me to begin my career without the stress of having to start paying back student loans, which is HUGE! Also, one of the best thing about going to nursing school in Cleveland is all the great hospitals in the area that we get to learn at!

∞ Where do you see yourself in the next 5 years? ∞

In the next 5 years, I hope to be working towards (or hopefully be done earning!) my masters in nursing as a nurse practitioner. I know my true calling in life is helping others and want to be able to work more closely with patients as a provider to help them maintain their health and manage health issues.
