

SOCIETY OF PHYSICS STUDENTS (SPS) EVENT

Celebrating the man behind the scenes of the Physics Department for the last 30 years: Bryan Carpenter

A Retirement party for the dear friend of SPS

In case you didn't know, our very own Mr. Bryan Carpenter retired this semester. Bryan was the Electronics Technician & Machine Shop Advisor in the physics department, and he worked at CSU for **30 years!** Though the years EACH of the physics TAs and RAs was helped and taught by Bryan. He was also instrumental in the recent successes of the SPS events (Physics of Rock and Roll,

Physics Jeopardy, Physics Olympics, Catapult Contests) and Departmental/SPS outreach activities (Physics days, Dangerously Daring Demos event, CIS outreach).

SPS is hosting a party for Bryan this **Friday at 12:30 in SI 147/117**, and you **are all** invited! There will be free pizza and pop and a raffle of sorts, so come and enjoy the fun after a full week of finals!

WHERE

SI – 147/117

WHEN

12:30- 2pm

Friday, December 12th, 2014
