

SOCIETY OF PHYSICS STUDENTS (SPS) EVENT

How Physics Can Help YOU Get a Summer Job!

Abstract:

As Cleveland becomes cold and rainy once again, students' thoughts often turn to summer sun and fun. But summer isn't ALL fun and games...it's also a good time to get valuable work experience and make some extra cash! So now "is the season" to start thinking about next summer! Andreea Sandu and Krista Freeman will describe their experiences as National Science Foundation (NSF) interns in the Research Experiences for Undergraduates (REU) program. Information about NASA internships will also be presented. Come learn how to find a summer internship, how to apply, and what to expect when you get there.

WHERE

SI – 117 (room next to the Physics
Computer Lab)

WHEN

Noon- 1pm
Thursday, October 20th, 2011
