

Technology Internship at Antiochian Village

Fuad Zoghaib

Choose **Ohio** First

INTRODUCTION

I had the opportunity to work as the technology intern in the offices at the Antiochian Village this past summer. The Antiochian Village is a place that focuses on serving the youth and they have a summer camp program with around 300 kids that attend two-week sessions throughout the whole summer. My responsibilities included maintaining the computer system, troubleshooting any problems with my colleagues' computers, and updating the Antiochian Village website whenever necessary. I also updated and installed new operating systems on old devices that were out of commission so that those devices could be used again in other departments such as the health center, which assisted them in recording and maintaining important information about each of the kids that attended the Antiochian Village for summer camp. This experience was beneficial for me and it allowed me to grow a lot as a person.

OBJECTIVES

- Gain valuable internship experience
- Apply troubleshooting skills gained from CSU
- Develop communication skills with others around me

ASSIGNMENTS

- Installed new operating systems on devices that were out of commission
- Updated the website to add information about upcoming events
- Troubleshotted and addressed requests from my colleagues

Theme: 7 Minutes To Live

What would you do if you had seven minutes to live? Join us as guest speaker, Fr. Michael Nasser delves deeper into this question.

Taking place over the Feast of St. Raphael (one of AV's Patron Saints), our Alumni Reunion Weekend is a chance catch up with old friends and meet new ones during a weekend of fun and fellowship here at the Village. Whether you were a camper, staff member, or volunteer, or even visited the Village in the 2000s or even a different decade, you're a part of our Village Family. ALL are welcome! We'd love to see you there!

This year, we will be celebrating the 2000's.

TENTATIVE SCHEDULE

Fr. Michael Nasser

Fr. Michael Nasser, served as camp director from 1996 to 2006 and returns regularly as a Summer Camp Session Priest. He is currently the pastor of St. Nicholas

LESSONS LEARNED

Troubleshooting different problems throughout the summer allowed me to pass the knowledge that I had about certain issues along to others around me. I also learned that serving others around me gives me a lot of joy.

FUTURE CAREER OBJECTIVES

This internship was a great experience that allowed me to get my foot in the door for future possibilities. I would like to apply the skills that I learned here wherever I end up working full-time upon my graduation from Cleveland State.
