UNIVERSITY LOGO USAGE

INCORRECT LOGO USAGE

Usage of the Cleveland State University logo and all of its related components may not be altered or distorted in any way. These rules also apply to any other official CSU logomark.

Examples of how NOT to treat the Cleveland State logo are:

1. The CSU mark and type lockup may not be separated or edited without special approval of University Marketing. The CSU mark and type must remain as one standard unit in its specified configuration.
2. No part of the logo may be scaled in such a way that distorts the specified size ratio.
3. Surrounding the logo by another shape (square, circle, etc.) should be avoided. If enclosure is deemed necessary, there should be sufficient spacing around the logo (see pg. 3).
4. The logo may not appear in any unauthorized color. This includes any secondary colors in the authorized CSU brand palette.
5. The logo may not be stretched or distorted.
6. To ensure maximum contrast, do not show the logo in a dark color on a dark background, nor the logo in a light color on a light background.

1. Changing CSU mark and type

4. Unauthorized color

2. Scaled CSU mark and type

5. Distorted logo

3. Insufficient spacing

6. Insufficient contrast

UNIVERSITY SEAL

UNIVERSITY SEAL

Cleveland State University has an official seal that is reserved for presidential use, Board of Trustees use and on official University documents such as transcripts, diplomas and commencement materials.

Questions regarding the University seal should be directed to University Marketing.

HISTORY

Created in 1997, the seal features four symbols: buckeye leaves representing Ohio; the Greek letter alpha and the infinity symbol, which represent the foundation of knowledge and unlimited potential; and a quill pen, open book, and gear, which represent CSU's three original colleges (Business, Arts and Sciences, and Engineering). The seal's nine pillars stand for the nine members of Board of Trustees and includes CSU's founding year.

COLLEGE AND DIVISION USAGE

In order to create brand unity, colleges and divisions within Cleveland State University must follow the outlined standardization:

- The official University mark (CSU letters and skyline) is always placed to left of the college or division name.
- A small rule line separates the University mark from the college/division name.
- College and division names are written in smaller Trade Gothic Regular. It is not to be bold or italicized.
- The full logotype can be used in either color, reversed color, black or white (1-color applications).
- Contact University Marketing for use of the black and white variants of the college/division logo.
- There are positive and reversed versions of the logo. The positive image suits most needs, while white or other light colored seals on dark backgrounds must use the reversed.
- Colleges/divisions are not to attempt to create a logo. Rather, University Marketing will provide official and approved logo files per each college and division.
- When used on promotional/collateral material:
 1. if space allows, use the college logo with the skyline, and the University type only logo.
 2. if you use the college/division logo, the University type only logo **MUST** appear.
 3. if space does not allow for both logos, the University full logotype takes precedence.

WEB FONTS

To ensure the correct display of a font across multiple web browsers and computer systems, web fonts are used. Web fonts are most likely to be on the majority of computer systems. While some fonts are usable for print design, they do not necessarily have a web-safe version or license available for purchase. Therefore, a similar web font is substituted.

CSUOHIO.EDU
