## Tips to keep you and your family safe when **you** are home from college.

### Before you travel...

- ✓ Start to decrease your social contacts 7-14 days before coming home.
- ✓ Monitor for any COVID-19 symptoms like fever, cough, body aches, etc.
- ✓ If your school offers voluntary testing, get tested a few days before traveling home.

⊕ Positive test result

— Negative test result

✗ No access to testing

### While you travel...

- ✓ Wear a face mask when you are within 6 feet of another person.
- ✓ Control your environment by keeping your distance from others when possible.
- ✓ Use hand sanitizer or wash your hands often, especially after touching high-contact surfaces (door handles, countertops, etc.).

### After you get home...

- ✓ If possible, sleep in a separate room and use a separate bathroom from others.
- ✓ Do not share drinking glasses, dishes, or eating utensils with others unless they have been washed.
- ✓ In your home, wear a mask when around elderly or immune compromised individuals.
- ✓ When in public, continue to wear your mask, wash your hands and social distance.

### While you travel...

- ✓ Avoid being within 6 feet of another person while in isolation.
- ✓ Do not use airlines, trains, buses, other public transportation or rideshare services while in isolation – travel by personal car only.
- ✓ Use hand sanitizer or wash your hands often, especially after touching high-contact surfaces (door handles, countertops, etc.).

### After you get home...

- ✓ Isolate at home, sleep in a separate room and use a separate bathroom from others in the household.
- ✓ Do not share drinking glasses, dishes, or eating utensils with others unless they have been washed.
- ✓ In your home, avoid being within 6 feet of another person and wear a mask if you are in the same room as other family members.
