

Take the LASSI

The Learning and Study Strategies Inventory is designed to gather information about learning, study practices and attitudes. Your scores should help you understand more about yourself and how you compare to others who have taken this assessment. With these results you can also take steps to make meaningful improvements to your learning and study skills.

You will be asked to respond to 64 statements. To help you decide which responses to select, here is an explanation of what is meant by each option.

- By **Not at all typical of me**, this would be true of you only in rare instances.
- By **Not very typical of me**, the statement would generally not be true of you.
- By **Somewhat typical of me**, the statement would be true about half the time.
- By **Fairly Typical of me**, the statement would generally be true of you.
- By **Very much typical of me**, This answer is not necessarily meant to describe you always, but it would be true almost all of the time.
