

RESEARCH EXPERIENCE FOR UNDERGRADUATES (REU) PROGRAM

10 Weeks

\$ PAID SUMMER RESEARCH

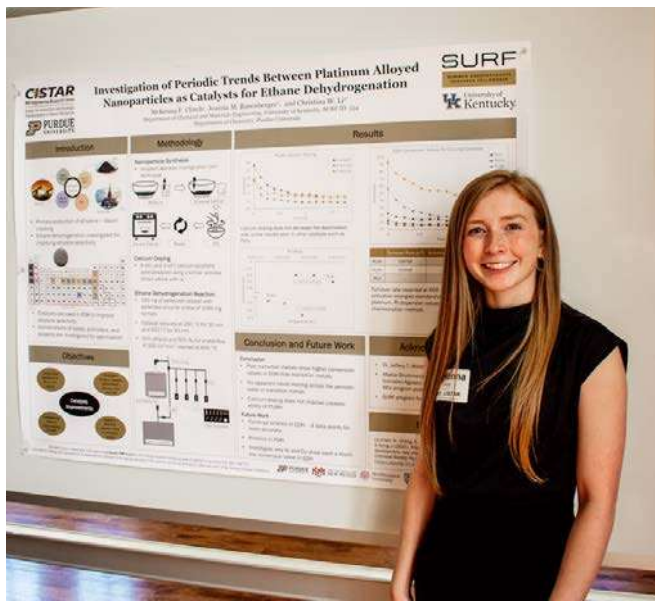

HOUSING & TRAVEL COVERED

MULTIPLE MENTORS

PROFESSIONAL DEVELOPMENT

2024 PROGRAM DATES: MAY 20 - JULY 26, 2024

CISTAR's (Center for Innovative and Strategic Transformation of Alkane Resources) NSF-sponsored REU program will match undergraduates with faculty and graduate student mentors to do cutting-edge research on areas such as catalysis, separations, process design, decarbonization, and electrification. Students will be part of a research team with collaborators from across the five universities and meet with corporate partners in the energy sector for information sessions, tours and informal mentoring. Opportunities are available at Purdue University in West Lafayette, IN or the University of New Mexico in Albuquerque, NM.
