

Sherwin Williams R&D

Are You Ready to Innovate Your Career?

The Sherwin Williams Company is very proud to announce our very first R&D University Expo in partnership with Cleveland State University.

The Sherwin Williams University Expo will showcase our five functional divisions as well as the Research and Development work that happens in each. Our Technical and Human Resources leaders will be available to discuss our work and provide insight into the culture of a company consistently rated as one of "Best Place to Work".

We are Sherwin-Williams

From our earliest days in 1866, the spirit of innovation has allowed Sherwin-Williams to carve out an enviable position as a world leader in the coatings industry. With over 500 Research & Development employees in the greater Cleveland area, and 900 patents (and counting!), the Sherwin-Williams innovation team continues to build on our rich legacy.

Technical Divisions

Automotive Finishes

Automotive Finishes (SWAF), a division of The Sherwin-Williams Company, manufactures and distributes a complete line of advanced technology paint and coating systems for automotive and fleet refinishing industries.

Diversified Brands

The Diversified Brands Division supplies a robust portfolio of paint and coatings products to large retailers, independent co-ops, wholesalers, and distributors.

Global Supply Chain

The Global Supply Chain Division formulates and manufactures paint, stains, clear coatings, aerosols, paint applicators, and other related products for the S-W Stores, Diversified Brands Division as well as private label names.

Product Finishes

Product Finishes Division is an industrial coatings leader that delivers local finishing solutions on a global scale to OEMs and tier suppliers.

Protective & Marine

The Protective & Marine division is the largest protective coatings company in the Americas and the third largest in the world. Our business is asset protection; protecting customer's assets from the costly effects of corrosion.

This event on February 20, 2015 from 1:30 to 4:00 p.m. at SR 152 and the adjacent atrium.
