

## Faculty/Staff Spring Permits

Parking Services is pleased to present the permit options and rates for the 2017 spring semester. Prior to purchasing a permit, ensure that your parking account balance is up to date and all citations have been paid; outstanding balances will prevent and/or delay your ability to purchase a parking product.

**Permit holders are required to scan their Viking Card to enter and exit gated facilities.**

All permit purchases should be made via [CSU GO Online Parking System](#) by logging in with your CSU ID and CampusNet password.

**Effective Date:** January 1, 2017  
**Expiration Date:** May 19, 2017

Restricted Permits are only available to semester-based Faculty and must be purchased in the parking office. **Semester-based Faculty who do not have a signed contract should bring a letter of intent, on departmental letterhead, signed by their Chair/Dean.** The day(s) of the week you opt to park will be reflected on the permit. Permit holders who need access to campus on a day not reflected on their permit will need to park in a visitor/hourly parking lot. Limited-access permits will be valid from 5:00 a.m. to 11:59 p.m. on the pre-selected days reflected on the face of the permit. These permits offer significant savings vs paying the daily visitor rate. **Please note: Staff and Full-Time Faculty are not eligible to purchase restricted permits.**
