Planning Your Event

Conference Services wishes to cultivate partnerships by having successful programs, seminars, and conferences that positively support and enhance the economic activity of both Cleveland State and the local community. We directly support the University and seek to stimulate community partnerships that expand the reputation of Cleveland State on a regional level to become a means for broader institutional development.

We offer a variety of facilities and services to the Cleveland community and our visitors. We can provide the right facility for community, business, education, and nonprofit organizations to host private meetings, large conferences, provide research/technical facilities, multiple performance auditoriums, or athletic facilities.

Summer camp programs will enjoy our state-of-the-art Recreation Center, in addition to Woodling Gymnasium containing three full-size basketball courts, indoor running track, weight room, and natatorium with an Olympic-size pool; or move outdoors to softball and soccer fields.
