

KEYBOX LOCATIONS

To reduce the need to issue keys with the potential for loss and costly re-keying, the University has placed high-security electronic keyboxes around campus for use by faculty, staff, students, and contractors. Each year the number of keyboxes grows.

The electronic keyboxes are accessible by a user's PIN granted by AC&SS or by a building's SACC. A report history is available for each user of a Keybox detailing the time(s) the box was accessed and what keyrings were removed. All keyboxes are well protected by their own internal security features, a camera, and an alarm system. If a keybox is tampered with, an alarm is sent for immediate Police dispatch.

Content lists of a keybox are available from AC&SS and Police senior staff, and a key list is posted on the inside door of each keybox.

Keybox	Location	Notes
Administration Center	1 st Floor near room 109	
Business Building	1 st Floor Lobby (near East 17 th Entrance)	
Campus Safety Building	Internal	Police Use Only
CIMP Medical Building	Near room 108a
