Bachelor of Arts in Psychology

Knowledge of psychology can be a useful aid to successful functioning and understanding in today's complex world. An appreciation of individual differences in personality, ability, and background can enrich personal relationships. Coursework in psychology introduces the student to different areas of study in psychology and to the research from which psychological knowledge comes. Psychology majors may go on to careers in the following areas:

- Teaching psychology in high school or college
- Researchers for universities, governments agencies or the military
- Service providers for counseling individuals, couples or groups
- Administrators for hospitals, mental health clinics, nonprofit organizations, government agencies, schools, universities or businesses
- · Consultants for organizations
