# Diversity Index

Continuing our commitment to recognize the diversity of our campus, this year we are providing a Diversity Index for readers of the Book of Trends. The Index gives page numbers for all tables and graphs relating to gender and ethnicity, so that readers can easily locate information about all aspects related to our campus' diverse makeup.

<b>Kaitlin Vandemark</b>	Secretary	<b>Robert Bergmann</b>	Advisor

## President's Medal

The most prestigious non-academic recognition that Cleveland State University can confer, the President's Medal, is awarded to individuals, groups or entities whose commitment and dedication to the University are beyond question. The medal is conferred only when the honoree has made continuing and/or extraordinary contributions, or has provided exemplary and ongoing services that have directly and tangibly advanced the best interests and mission of Cleveland State University. The first President's Medal was presented in November 2004.

President's Medal

Recipients		Recipients	
2012	Donald E. Washkewicz	2007	Art J. Falco
2011	Monte Ahuja Dr. Usha Ahuja Ronald E. Weinberg	2006	James D. Ireland III Dr. William Hiller Stanley Miller

## Distinguished Alumni Award

Annually, outstanding graduates of Cleveland State University are honored for their service, leadership and career achievements with a Distinguished Alumni Award.

### 2008 Honorees

Anand "Bill" Julka	George B. Davis Award
Ellis Z. Yan	Monte Ahuja College of Business
James A. Harmon	College of Education and Human Services
Dr. Roshanak Hakimzadeh	Fenn College of Engineering
Georgia A. Froelich	Cleveland-Marshall College of Law
Dr. Robert A. Cutietta	College of Liberal Arts and Social Sciences
Dr. Christine S. Moravec	College of Sciences and Health Professions
Gregory L. Brown	Maxine Goodman Levin College of Urban Affairs

### 2009 Honorees

Gary S. Adams	George B. Davis Award
Robert L. Norton	Monte Ahuja College of Business
Father Kevin M. Conroy	College of Education and Human Services
Craig A. Black	Fenn College of Engineering
Carol G. Emerling	Cleveland-Marshall College of Law
Andrew F. Puzder	College of Liberal Arts and Social Sciences
Andrius Kazlauskas	College of Sciences and Health Professions
Christopher S. Ronayne	Maxine Goodman Levin College of Urban Affairs

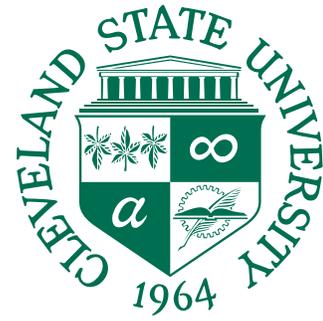

### 2010 Honorees

Irene A. Holyk Rennillo	George B. Davis Award
Saji T. Daniel	Monte Ahuja College of Business Administration
Catherine S. Koppelman	College of Education and Human Services
Terrence V. Zuk	Fenn College of Engineering
Tanisha R. Briley	College of Graduate Studies
David M. Paris	Cleveland-Marshall College of Law
Miriam Solomon Plax	College of Liberal Arts and Social Sciences
Dr. David G. Watterson Jr.	College of Sciences and Health Professions
John J. Boyle, III	Maxine Goodman Levin College of Urban Affairs

### 2011 Honorees

Richard P. Stovsky	George B. Davis Award
Linda M. Kane	Monte Ahuja College of Business
Dr. Aaron T. Ellington	College of Education and Human Services
Joseph A. Williams	Fenn College of Engineering
Ian N. Friedman	Cleveland-Marshall College of Law
Maria Keckan	College of Liberal Arts and Social Sciences
Dr. Nancy M. Albert	School of Nursing
Dr. Beth Brandt Sersig	College of Sciences and Health Professions
Madeline A. Cain	Maxine Goodman Levin College of Urban Affairs

**Note:** A new methodology has been used to determine New Master & Doctoral students beginning Fall 2010. These are now cohorts chosen by Graduate Studies. Beginning in Fall 2010 Graduate Licensure was moved from Masters/ Law to Other Graduate.

<sup>1</sup> Other Graduate includes students enrolled in Non-Degree Courses and Transfers. Part-time new Masters and Doctoral students are also under Other Graduate now.

**NOTE:** In prior editions of the Book of Trends multiple methodologies were used to count new graduate students in the different years within the same table. This year, we have chosen one methodology and have applied to the entire table. Specifically, students are marked as "new" during their first year at the graduate level. New students pursuing a Master's degree, a Law degree, or a Licensure degree are included in the first section of the table. First-time graduate students who are pursuing a Doctoral degree are included in the second section of the table. All other new graduate students, including non-degree and graduate transfer students, are included in the "other" category.

This methodology mirrors the rules used by the Ohio Board of Regents. Specifically, the Regents require that a graduate student be reported as "new" only once and only in the first semester they are considered a graduate level student.

**Undergraduate full-time status:** Any student registered for a minimum of 12 hours.

**Graduate full-time status:** Any student registered for a minimum of 9 hours.

**Law full-time status:** Any student registered for a minimum of 13 hours.

<sup>1</sup> Other includes students enrolled in Air Force, Career Services, English as a Second Language, Military Science, Special Programs and Study Abroad.

<sup>2</sup> Undergraduate Non-Degree and Graduate Studies fluctuations are due to the reclassification of academic plans.

**Study Abroad:** Prior to Fall 2010 SAB courses were counted under Developmental, for Fall 2010 and 2011 they are included under Upper (84 units in Fall 10 & 36 units in Fall 11)

**Note:** The lower number of units taken for Developmental courses reflects not only the shift of SABs mentioned above, but a re-categorization of some English classes from Developmental to Lower.

<b>Total States .....</b>	<b>17,447</b>

**Note:** Table 2.16 is based on student's residency for fee purposes, while Table 2.17 and 2.18 are based on student's address.

Non-Resident Aliens are those with a citizenship status of Alien Temporary.

A resident of Ohio may have mail sent to an out of state address. As a result, Ohio resident totals may not match in the two tables.

# Enrollment Characteristics of Students in CSU Colleges

# 3

**BOOK OF TRENDS**  
CLEVELAND STATE UNIVERSITY

For this year's Book of Trends we have made an adjustment in how we group students within a given department (tables 3.1 through 3.11a). Students with multiple majors are now reported in each major. Tables 3.1 through 3.11a show the number of declared majors within a given department and school, *not the number of students*. We were only able to apply this new method to Fall 2010 and Fall 2011 enrollment numbers; therefore numbers using the old method are reported from 2007, 2008, and 2009.

The rest of the tables in this chapter are at the school level and do follow the old rubric of selecting students based on their primary major, as determined by state reporting rules. As such, *these tables do represent headcounts*.

Table 3.1: College of Business: Fall Enrollment by Level and Major, 5-Year Trend

Department/Program	Description	2007	2008	2009	2010	2011	Percent Change

## Monte Ahuja College of Business

### BACHELOR'S DEGREES

- **The College of Business** has been successful in achieving maintenance of accreditation in business and accounting from AACSB International for our bachelor, master, and doctoral programs. During the recent maintenance of accreditation process we were recognized for our excellence in academic programming, faculty scholarship, the diversity council, and outreach to the business community.
- **Our global business** programs have been recognized with President Obama's E-Award from the U.S. Department of Commerce: <http://blog.trade.gov/2011/05/16/worldtradeweek/>.
- **Our students and their faculty advisors** have been recognized for their success in the Clean Energy Challenge for their innovation in sustainable business practices <http://www.csuohio.edu/business/osm/resources/news/2012/Clean-Energy-Challenge.html>.
- **Assisting and Advising Freshmen and Sophomores.** In order to better serve the interests and concerns of first and second-year undergraduate students, a new initiative is being studied that will help students to navigate through the academic, campus, and professional worlds of the undergraduate experience at CSU.
- **Ahuja Summer Scholarship:** The College provided more than 350 scholarships to support undergraduate and graduate Ahuja students' academic studies during the summer semester in order to help students fast track their degree completion.
- **General Major in Business Administration.** This recently-launched cross-functional major continues to show significant growth from 123 majors in 2007 to more than 400 in 2010. This major, which requires the student to take elective courses in a minimum of four functional areas, appeals to many working adults who want to complete the business degree at the main campus and at convenient extended campus locations.
- **Other Popular Majors.** Other majors that continue to show enrollment growth include accounting, marketing, information systems, finance, international business, operations management, and business economics. Students are also continuing to choose double majors.
- **Viking Student-Managed Investment Fund:** Monetary support from the Key Foundation, the CSU Foundation, and the Ahuja College created a \$300,000 fund dedicated to providing business students with hands-on experience in formulating strategy and selecting and managing an investment portfolio. A hand-picked group of highly-motivated undergraduate and graduate finance students are enrolled in this program and make investment decisions as a team. Even in a volatile market, the fund has grown to more than \$400,000 in addition to providing students with valuable learning experiences.

### MASTER'S DEGREES

- **The Executive MBA program** has been recognized as a “best value” by CNN Money.
- **Dr. Stephen Kirk (MBA alum)**, former Lubrizol Corporation, Chief Operating Officer has been appointed as Executive-in-Residence of the Executive MBA program. Our Executives in Residence have provided our business school access to a network of resources that have enhanced and will continue to enhance our academic and outreach programs.
- **With more than 800 full- and part-time students**, the MBA degree continues to be the most popular graduate business degree in the College, accounting for more than 65% of graduate business enrollment.
- **Enrollment for master’s degree programs** in business and CIS grew 20% over a five-year period. This increase has been attributed to improvements in the College’s recruiting and enrollment management strategies and continuous improvements in programs aimed at student retention.
- **The Global Accelerated MBA program**, launched in 2010, focuses on upper-division MBA courses with a global flavor and includes an international business study tour. Recent Global AMBA classes visited Spain and Portugal (2010) and Belgium and the Netherlands (2011).

- **The Master of Accountancy program** has more than doubled in size from 2006 to 2010. The program continues to be popular because of attractive job prospects for accountants, strong faculty engagement with the accounting profession, curriculum improvements, and new admission requirements.
- **The Management & Labor Relations program** is a small but selective program which has grown 17% over a 5-year period and 38% since 2009. The program prepares students for careers in human resources management and labor relations.
- **Overall enrollment in master’s degree programs grew** consistently from 2006-2012. Well-planned recruiting efforts and the offering of graduate programs at off-site locations including corporate sites have contributed to the growth of enrollments in our business programs.
- **Certificate in Global Sustainable Business Practices.** The Ahuja College was awarded a grant from the U.S. Department of Education to integrate the principles of sustainability across all international business programs, partnerships, and alliances. The Global Certificate program was developed partly to fulfill the requirements of the grant but also to introduce sustainable business skills and practices to a new generation of business students. The program was launched in Fall 2010.

### DOCTORAL DEGREES

- The DBA program prepares students to teach and conduct scholarly research in five areas: finance, marketing, information systems, operations and supply chain management, and global business.
- New cohorts are recruited every three years in order to provide full support for full-time students.
- Graduates of the DBA program are employed in faculty positions of universities in the U.S. and in various parts of the world including Canada, Taiwan, Zambia, Bangladesh, and Dubai.
- DBA alumni have achieved significant successes in academics and in industry.

## College of Liberal Arts and Social Sciences

### COLLEGE OF LIBERAL ARTS AND SOCIAL SCIENCES PROGRAM TRENDS

- CLASS continued to experience overall growth during 2011. The college grew by 3% overall (1-year change), increasing by 3% at both the undergraduate and graduate levels.
- The graduate degree program in Global Interactions (Political Science), introduced in 2009, continued to grow rapidly, from 24 students in 2010 to 46 in 2011.

### GROWTH AREAS

- Criminology continues to be the largest program in the College with 353 students, having grown another 4% since 2010.
  - Sociology increased its number of majors by 33, or 23% since 2010.
- ### UNDERGRADUATE TRENDS
- Undergraduates with declared majors in CLASS programs increased from 2,894 in 2010 to 3,024 in 2011, an increase of 130 new majors. This represents a 29% increase from 2,349 declared majors in 2009.
  - College interdisciplinary programs expanded with the addition of the Black Studies major.
  - Established majors that continued to exhibit steady growth over the 5-year period included Anthropology, Art, Film & Digital Media, International Relations, and Theatre and Dance.

### GRADUATE PROGRAMS

- The College gained in graduate enrollments in 2010, increasing by 3% from the previous year and 14% over 5 years.
- The MA in Global Interaction, housed in the Political Science department, continued to show sustained growth, with a 92% 1-year increase.
- MA programs in Economics, History, and Social Work continued steady growth based on both 1-year and 5-year comparisons.
- The Master of Social Work program remained the largest graduate program in the College, with 206 students (33% of the 610 degree-seeking graduate students).

## College of Education & Human Services

### BACHELOR'S DEGREE PROGRAMS

- Continuing financial difficulties of local school districts has led to a weak local job market for teachers. In spite of this, we have seen strong growth in our Middle Childhood program.
- Although there was a one-year dip in enrollment for Exercise/Fitness Specialists and the Mild/Moderate and Moderate/Intensive Intervention Specialist programs, the 5-year trend has demonstrated ongoing demand for these programs.

### MASTER'S DEGREE PROGRAMS

- The Master's programs in Exercise Science and Sports Management have continued to show strong growth in the short and long term.
- The steadily increasing numbers in the Graduate Education Licensure programs are comprised primarily of candidates in our post-masters Inspired Leaders Principal licensure program, which is a special cohort-based program to earn principal licensure within a year.
- Recently failed school levies, teacher layoffs, and changes in teacher licensure that no longer require a masters degree may contribute to recent declines in the Curriculum and Instruction program, which is largely populated by local teachers.

### DOCTORAL PROGRAM

- Demand for the doctoral program remains consistent overall. Growth is limited by a cap on enrollment in this cohort-based program.
- With steady enrollment since its inception, the Counseling Psychology specialization continues to build to its capacity as the program matures. With its Fall 2010 accreditation by the American Psychological Association, this specialization is expected to grow even more. The Nursing specialization also started to receive students in 2011 and is expected to grow in upcoming years.

<sup>1</sup>As the School of Nursing split from the College of Education, a number of changes occurred in the SON's academic plan codes; specifically, Pre-Nursing plan codes. Originally, all students interested in nursing, but who had not yet been admitted to the school were grouped into general "Pre-nursing" codes. The Fall of 2010 was a transitional year, wherein most students who had not been admitted into the nursing program were grouped under an "Exploratory Nursing" code housed in Undergraduate Studies. This past year, Fall 2011, students who have been admitted to CSU but not yet been admitted to the SON are grouped into codes based on where they are receiving advising. "Pre-Nursing," regardless of whether the student has earned any other degree or licensure, now refers to students receiving their advising by SON advisors. "Exploratory Nursing" refers to students who have indicated an interest in nursing but who are being advised by Undergraduate Studies advisors. See Table 3.9 for counts of those enrolled in Exploratory Nursing.

## School of Nursing

The School of Nursing is a free-standing unit reporting directly to the Provost since July 1, 2010. The nursing enrollment data shown in this publication have been extracted from what was reported during the period 2007 through 2010 when the School of Nursing was a unit in the College of Education and Human Services. The data reported beginning Fall 2011 reflects the School of Nursing records.

The School of Nursing is housed in Julka Hall, which provides a wonderful home for students, faculty and staff to work together to meet student learning outcomes. The Nursing Resource Laboratories (NRL) where the students learn nursing skills and develop competency through practice on manikins and simulation experiences, are an essential component for clinical education. The NRL is a state of the art facility housed on the first and second floor of the Chester Building. They have been expanded and technologically updated so that they continue to provide an outstanding learning environment for students to safely learn complex psychomotor skills prior to caring for human patients during their clinical courses.

### BACHELOR'S DEGREE PROGRAMS

- The School of Nursing offers three different tracks through which students can earn a Bachelor of Science in Nursing (BSN) degree. These are the traditional BSN track, the Accelerated Option (post-baccalaureate) track, and the RN to BSN track. The first two tracks prepare the graduate to seek licensure as a professional nurse. The third track provides a route for licensed RNs to build on their Associate Degrees or Diplomas and earn a baccalaureate degree in Nursing, which in turn prepares them for graduate study and/or career advancement.
- In the past year, the slight decline that had occurred in the demand for nurses due to the economic slowdown has turned around and the demand for nurses nationwide and in this region again is growing, making nursing an appealing career choice with excellent prospects for employment or promotion. The Accelerated Option (AO) track, which allows individuals with a bachelor's degree in another area to earn the BSN in four consecutive semesters, has been especially attractive to those seeking a change to a more stable career.
- Larger state-of-the-art classroom space in Julka Hall has allowed the School of Nursing to efficiently deliver lectures to the expanded number of students entering the Nursing Program in both pre-licensure cohorts.
- Currently the School of Nursing admits 80 students to the basic BSN program which begins each year in the Fall semester and 80 students to the Accelerated Option program which begins a new cohort each Spring semester. Previously the Accelerated Option students enrolled in smaller cohorts - half in Spring and half in Summer semesters. This change to the admission schedule resulted in a temporary one semester decrease in AO enrollment in 2010, but provides a better sequence for students in this intense program. The schedule change was supported by previous AO student feedback.

- Since Fall 2008, the entire RN to BSN track has been offered online in response to student feedback, allowing working nurses the flexibility to complete a degree around their demanding 24/7 schedules. The Nursing portion of this program can be completed in three semesters during one academic year.
- A major revision of the undergraduate curriculum and course scheduling also based on student feedback and revised accreditation standards was completed in 2009. The new curriculum was implemented beginning Fall 2010 and has improved learning experience and enhanced outcomes.

### MASTER'S DEGREE PROGRAMS

The MSN program continues to see enrollment increases as a result of recruiting efforts and networking. Graduate students can choose from one of five tracks: Specialized Populations, Forensic Nursing, Clinical Nurse Leader, Nursing Education, and a joint MSN/MBA offered in cooperation with the Monte Ahuja College of Business.

The on-line delivery of this program serves not only working nurses, but also allows a growing number of out-of-state students to benefit from CSU's population health based graduate program. This has contributed to the observed increase in the MSN program, as have changes in professional standards that promote advanced education for nurses. The MSN curriculum has been totally revised to meet changing accreditation standards and to reflect feedback from students regarding the content of key courses and the applicability to their career plans. The new curriculum is being phased in with new MSN students beginning Fall 2012.

### NEW PHD TRACK

To respond to the critical shortage of nursing faculty throughout the country, the School of Nursing collaborated with the College of Education and Human Services to offer a new specialization track as part of the PhD in Urban Education degree. This new track, Nursing Education, builds on the core courses in the PhD program, and will be taught by School of Nursing faculty. Applicants must have an earned MSN to apply and will be expected to focus their research on an aspect of nursing education. The first students were admitted on a part time basis in the Fall of 2011.

## College of Engineering

### BACHELOR'S

- Compared with 2010 data, the College shows a 6% increase. The increase in undergraduate enrollment may be attributed to Fenn Academy's involvement with local high schools.
- The increasing enrollment trend is expected to continue as the enrollment has increased by 48% over a five-year period.
- The College's new undergraduate enrollment continues to grow and shows a substantial 41% increase over a five-year period (referring to Table 2.5). In particular, the new freshmen enrollment has realized an impressive 47% increase over the past five-year period.
- The zero enrollment from the Industrial & Manufacturing Engineering was expected, which means that every student in that program has graduated since the program has been suspended in Fall 2009.

### MASTER'S AND DOCTORAL PROGRAMS

- The College's enrollment at the Master's level slowed down in Fall 2008 after two consecutive years of growth. But, it has turned around in Fall 2009 and continued to increase by 17% a year later. Nevertheless, the enrollment in Fall 2011 slightly dropped by 3% over a year ago.
- The newly established Master's program of Biomedical Engineering has been successful in attracting a significant number of new students to the program, evidenced by the 222% enrollment surge in Fall 2010 as compared to Fall 2009. The enrollment continued to grow by another 14% in Fall 2011.
- Overall, the enrollment of the College's Doctoral Program in Fall 2011 remains unchanged compared to the previous year. However, Mechanical Engineering has realized a substantial increase of 167% in doctoral enrollment.

### OVERALL

- The recent gains at the undergraduate level continue to look very promising for the future enrollment in the College of Engineering.
- The College was recently funded by OBOR under the Choose Ohio First Scholarships Program with approximately a half million dollars for the program entitled "Engineering across the Pipelines". The program is expected to improve the enrollment at the undergraduate level as well as the Master's level.
- Our 4+1 Accelerated Master's Programs from four departments took effect in Fall 2009.
- The College's recent articulation agreement with Bahceshir University from Turkey resulted in bringing some graduate students since Fall 2009.
- Over a five-year period, the College has realized an overall enrollment gain of 28%.

## College of Sciences and Health Professions

### GENERAL COMMENTS – ENROLLMENT GROWTH

- The data show substantial enrollment growth in the College over the past five years.
- Steady growth in the number of majors is seen for almost every program in the College over the five year period. Several programs show significant growth over the five year period, both at the graduate and undergraduate level, especially in Biology, Environmental Science, and Health Sciences.
- Present and future growth is supported by the excellent job opportunities in health-related fields. Faster (or much faster) than average growth rates are projected through 2016 by the Bureau of Labor Statistics ([www.bls.gov](http://www.bls.gov)) for physical therapy, occupational therapy, physician assistants (School of Health Sciences), psychologists (Psychology Dept.), medical technologists (Biology Dept.), applied statistics specialization (Mathematics Dept.), pharmacists (pre-pharmacy program in Chemistry), physicians (Biology, Chemistry, and Health Sciences), and medical research scientists (graduate programs in Biology, Chemistry, and Physics).

### NEW PROGRAMS

- A major source of the increase in Health Science majors is the articulation agreements with Tri-C and Lakeland Community College (with 20 Tri-C health sciences programs feeding students into the undergraduate BSHS program). A greater awareness of excellent employment opportunities in health-related fields and an increasing use of the BSHS major as a pre-professional degree have contributed to this increase as well.
- New programs (e.g., BS in Pharmaceutical Sciences) and new initiatives (e.g., 2+2 agreements with Tri-C and Lakeland) are expected to sustain and accelerate growth for the foreseeable future.
- An agreement to create a CSU psychology major at Lakeland Community College, PSEOP courses in psychology offered at area high schools, a collaboration with Tri-C to offer an MS in Health Sciences with a track in Physician Assistant Science, and articulation agreements with three universities in the People's Republic of China for the Chemistry master's program, all will encourage enrollment growth.
- Substantial growth in graduate programs is anticipated with the initiation of several new programs including: 4+1 master's degree options in all COSHP units.
- A new joint program with NEOMED will add a post-baccalaureate pre-medicine concentration in Health Sciences with an emphasis on urban health.

### DOCTORAL PROGRAMS

- PhD programs in Biology and Chemistry are nationally/internationally visible programs that partner with the Cleveland Clinic. Changes in enrollment are largely a function of available funding to support doctoral programs, but the number of outstanding applicants has continued to increase.
- The clinical, doctoral-level professional program in Physical Therapy (DPT) in the School of Health Sciences is growing rapidly, in response to local demand.

## Maxine Goodman Levin College of Urban Affairs

- The Levin College is Ohio's only College of Urban Affairs. The College is ranked second in U.S. News and World Report's 1998, 2002, 2005, 2008, and 2012 editions of America's Best Graduate Schools for the graduate specialty in City Management and Urban Policy. The Levin College is ranked twelfth for the graduate specialty in Nonprofit Management in the 2012 edition.
- The Levin College is "Changing America's Cities One Graduate at a Time". Levin alumni run cities, work for local, state, and federal government, manage community organizations, work in historic preservation, conduct urban research, and contribute to the economic development of urban regions.
- Organizational Leadership is the Levin College's newest major. The degree is a collaborative effort between the Levin College, the Monte Ahuja College of Business, and the School of Communication. The Urban Studies major remains the largest in the College, and Nonprofit Administration is the second-largest Urban Affairs major.
- New offerings by the College include the addition of a minor and undergraduate certificate in Sustainable Urban Development, a Certificate in Public Management, and a new articulation agreement between the Environmental Studies major and Cuyahoga Community College's Environmental Health and Safety degrees. These programs are a response to growing student interest in urban sustainability programs in this region and across the nation.
- Graduate students in the Levin College can apply for graduate assistantships in the College's Urban Center, working with nationally-recognized research professionals on grant-funded projects and learning valuable client-management skills that prepare them for the work-force.
- The Urban Center houses two federally funded applied research programs which include the Great Lakes Environmental Finance Center (EPA) and the Economic Development Administration (EDA) University Center.
- The Urban Center was a major intellectual contributor to the region's successful regional sustainability grant application to HUD, from which the Northeast Ohio collaborative received \$4.25 million over three years.
- The Levin College's Center for Leadership Development is one of three organizations that will manage and administer a program to train and place "social innovators" in six cities, including Cleveland, to address long-term economic challenges. The program is part of the "Strong Cities, Strong Communities" initiative announced by the White House in 2011.
- The Ohio Board of Regents named Cleveland State's Center for the NextGen\_Economy an Ohio Center of Excellence in Cultural and Societal Transformation. The Center will be led by the Levin College and the Monte Ahuja College of Business.
- Combined research initiatives for the College exceeded \$2.5 million in FY 2012.

### Cleveland-Marshall College of Law

- For the February 2012 Ohio Bar Exam, 92% of our graduates taking the test for the first time passed, which was the highest percentage of all Ohio law schools.
- Graduates of the law school practice in all 50 states, three territories, the District of Columbia and in countries in Europe, Asia, Africa, and Central America.
- The Center for Health Law and Policy issues a Certificate in Health Law to JD students who complete a range of courses in Health Law Regulation, Policy & Ethics, or Business & Litigation and complete an externship or clinic in the field of health law, including the new Community Health Advocacy Law Clinic.
- The law school successfully launched the Great Lakes Sports & Entertainment Law Academy, a joint program with Case Western Reserve University's College of Law, which attracted over 50 students from across the country to participate in an intensive three-week program in sports and entertainment law.
- Two members of the law faculty were selected as Fulbright Scholars in 2012.
- More than half of the law school's faculty members have advanced degrees in addition to their law degree.
- The law school's pipeline programs - the Law and Leadership Program and the Summer Legal Academy - introduce high school students to the legal profession and provide motivation and mentoring.
- In 2010, the law school was the first-ever recipient of the Diversity Matters Award, given by the Law School Admissions Council to the one law school in the country that best demonstrates a commitment to diversity.
- The law school's state-of-the-trial courtroom is the most technologically advanced courtroom in any Ohio law school.
- The College of Law library has more than a half million volumes in its collection.
- The law school co-sponsors a student summer law institute in St. Petersburg, Russia.

## Undergraduate Studies

- Undergraduate Studies: All provisional students were admitted into Undergraduate Studies (previously known as University Studies) without specification. Beginning in 2005, there was an initiative to identify a student's interest in specific colleges, and pre-program designations were established. It has been an ongoing process to identify a student's interest, when possible.

## East and West Centers

The opening of Cleveland State University West Center (Westlake) in August 2003 and East Center (Solon) in August 2004 established a suburban presence for the University's thriving downtown campus. The mission of the centers is dedicated to serving all students and offering the highest level of customer service. Academic offerings include programs for educators (teachers and administrators), business and public service professionals seeking to complete their university degree, and traditional college-age students and high school students in post-secondary educational option programs. CSU has given high priority to strengthening relationships with local community colleges and supporting the rise of e-Learning. As such, the East Center in Solon closed in August of 2011.

### Partnerships with Lakeland Community College and Lorain County Community College

The partnerships foster direct collaboration with community colleges to offer degree programs on the community college campus in addition to easy transfer through dual admission and various articulation agreements. All locations have grown in popularity as transfer students recognize the value and convenience of gaining an associate's degree and a degree from CSU. Liaison with these community colleges has been well planned and highly successful due to a shared passion for educating students.

# BOOK OF TRENDS

CLEVELAND STATE UNIVERSITY

## Sponsored Programs and Research at Cleveland State University

The University is committed to enhancing the research environment in support of its faculty and students. As such, efforts are underway to expand the research services currently offered to assist those seeking external funding for research, scholarship, and creative projects. Cleveland State University established a new office, the Office of Research, headed by the Vice President for Research and Graduate Studies, who is responsible for raising the research profile at Cleveland State University and for establishing the University as a recognized contributor to the local, regional, national and global research priorities. The creation of this expanding office will enable the University to achieve its mission, in which scholarship and research are held as major tenets.

Bringing discoveries from the laboratory to the classroom and to the world is a long and very expensive undertaking, one that is at the heart of what a university should do and do well. While Cleveland State is a “young” institution, it has committed itself to discovery and to becoming a research-focused university. And, while we are still in the early phases of that steep research incline, CSU has much to show for its initial efforts - efforts that presage a promising future.

It is important to note that the sponsored program proposals and awards that are described by the numbers and charts to follow would not have been possible without the drive, dedication and intellect of the University’s talented and diverse faculty and the contributions of graduate students and postdocs.

**Table 4.1: Sponsored Program Awards and Expenditures, Fiscal Years 2006-2011**

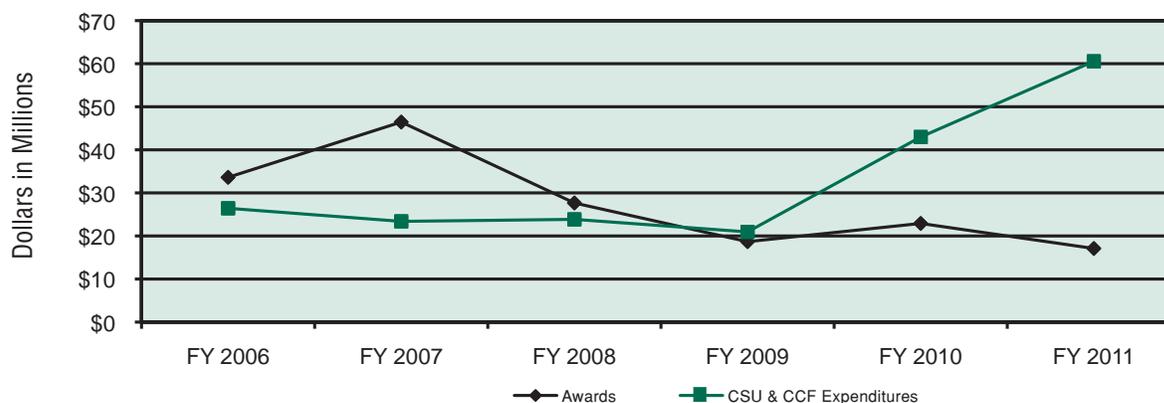

Source	Fiscal Year						Percent Change	
	FY 2006	FY 2007	FY 2008	FY 2009	FY 2010	FY 2011	1 Year	5 Year
Awards	\$33,610,661	\$46,453,388	\$27,661,642	\$18,677,794	\$22,909,197	\$17,093,917	-25%	-49%
CSU Expenditures	\$26,425,253	\$23,390,243	\$23,854,742	\$20,945,565	\$18,558,947	\$16,913,731	-9%	-36%
CCF Expenditures	N/A	N/A	N/A	N/A	\$24,422,152	\$43,642,969	79%	
CSU & CCF Total	N/A	N/A	N/A	N/A	\$42,981,099	\$60,556,700	41%	

**Notes:** 5 Year Percent Change is from the period 2006 to 2011.

The Total Award amount for FY 2010 & forward differs from that listed in the Monthly Activity Reports previously published by OSPR (<http://www.csuohio.edu/offices/spr/monthlyactivityreports/index.html>) for two reasons: 1) the reports in the Book of Trends include State Appropriations as a separate line-item while the Monthly Activity Reports do not. The amount stated here is higher because not all State Appropriation funding has been allocated to a Sponsored Program account. 2) The Award amount in the Monthly Activity Report for FY 2010 and the Award Amount numbers published in the Book of Trends for previous years were based on the Award amount received during that period for each project.

For FY 2010 and forward, the Total Project Award Amount is reported. For FY 2010, CSU is including research expenditures from the Lerner Research Institute (LRI) at the Cleveland Clinic Foundation. These expenditures are only for those grants held by LRI faculty who engage with Cleveland State University students.

**Figure 4.1: Sponsored Program Awards and Expenditures, Fiscal Years 2006-2011**

**Note:** The large increase in funding during Fiscal Year 2007 is due to the \$23.8 million award from the State of Ohio’s Third Frontier program that established the Wright Center for Sensor Systems Engineering. This Center involves a 33 member partnership led by the University.

## National Science Foundation Rankings of Cleveland State University and Other Selected Schools

The NSF rankings are widely recognized as a valuable benchmark in comparing the level of research taking place at institutions across the country. This survey, completed by over 690 institutions in 2010, compiles research and development expenditures only and is therefore a portion of the sponsored programs expenditures previously reported. The first table (4.5) below compares Cleveland State with other Northern Ohio institutions, while the second (4.5a) shows other institutions ranked similarly to Cleveland State. In addition to seeking and receiving funding for research and development, the University places a heavy emphasis on graduate education and involving those students in the research laboratory.

**Table 4.5: National Science Foundation Ranking of Research and Development Expenditures, Fiscal Years 2005-2010 (Northern Ohio Comparison)**

Institution	2010	(Dollars in Thousands)					
	Ranking	2005	2006	2007	2008	2009	2010
University of Toledo	168	\$32,351	\$30,493	\$52,448	\$59,583	\$66,136	\$70,399
University of Akron	185	\$26,888	\$28,440	\$27,138	\$27,182	\$34,507	\$52,884

## Indirect Cost Recovery

Indirect cost recovery is defined as the agreed upon revenue received from a sponsoring agency to pay a grant or contract's share to reimburse the university for the indirect costs it incurs. Indirect costs are real costs. Indirect cost calculations are based upon such items as space, utilities, security, maintenance, custodial, payroll, purchasing, accounting, personnel and many other expenses associated with project administration and implementation. Indirect costs recovered at Cleveland State University (CSU) become part of the general fund budget for the entire university.

Half of all indirect costs returned on sponsored programs remain in the university's general fund. This money is set aside for covering administrative expenses for sponsored program administration. It is also used to cover costs of facilities, depreciation on buildings and equipment, operation and maintenance of facilities, and library expenses. The other half of the indirect costs recovered are distributed as follows: 5% to project director, 15% to project director's department, 10% to relevant dean's office, and 20% to the Vice President for Research & Graduate Studies.

**Table 4.6: Indirect Cost (IDC) Recovery and Total Sponsored Program Expenditures by Year, Fiscal Years 2006-2011**

Research Activities	FY 2006	FY 2007	FY 2008	FY 2009	FY 2010	FY 2011	Percent Change	
							1 Year	5 Year
Direct Sponsored Program Expenditures	\$24,308,453	\$21,530,163	\$22,227,857	\$19,544,345	\$17,027,376	\$15,351,047	-10%	-37%
Indirect Cost Recovered	\$2,116,800	\$1,860,080	\$1,626,885	\$1,401,220	\$1,531,571	\$1,562,684	2%	-26%
Total Sponsored Program Expenditures	\$26,425,253	\$23,390,243	\$23,854,742	\$20,945,565	\$18,558,947	\$16,913,731	-9%	-36%
% IDC of Direct Research Expenditures*	9%	9%	7%	7%	9%	10%		

**Notes:** 5 Year Percent Change is from the period 2006 to 2011.

\*The % IDC is calculated by dividing the actual indirect cost recovered by the actual direct expenditures for each year.

Source: CSU Office of Sponsored Programs and Research

\* The success rate for each year is calculated by dividing the Awards Received for that year by the Proposals Submitted during the immediately preceding year. Although it is reasonable to assume that most Awards are based on Proposals submitted during the immediately preceding year, this can create instances where the Success Rate exceeds 100%. This is because some of those years' awards are based on Proposals submitted during both the prior and current year.

**Table 4.8: Proposals Submitted and Awards Received by College or Division, Fiscal Years 2006-2011**

Proposals and Grant Awards	Fiscal Year					
	FY 2006	FY 2007	FY 2008	FY 2009	FY 2010	FY 2011

## Ohio Research Incentive

Research Incentive (formerly Research Challenge) is a performance-based program in that funds are allocated among universities on the basis of their success in generating external research support in the previous fiscal year. Institutional allocations are made annually by the Board of Regents. All institutions are required to submit biennial plans for the expenditure of funds, prior to the allocation of such funds. The plans are reviewed jointly by the Research Officers Council and the Regents' staff. Individual research officers are responsible for the administration of Research Incentive funds allocated to each institution. See [http://regents.ohio.gov/rgp/rsch/research\\_incentive.php](http://regents.ohio.gov/rgp/rsch/research_incentive.php) for more information.

**Table 4.9: Ohio Board of Regents Research Challenge Distributions, Fiscal Years 2000-07 and Ohio Research Incentive Distributions, Fiscal Years 2008-11**

Institution							Percent Change	
	2000 & 2001	2002 & 2003	2004 & 2005	2006 & 2007	2008 & 2009	2010 & 2011	2 Year	5 Year
Bowling Green State University	\$539,869	\$501,849	\$498,016	\$570,077	\$466,357	\$220,278	-53%	-56%
Central State University	\$151,917	\$200,165	\$192,538	\$136,063	\$152,330	\$112,289	-26%	-44%
<b>Cleveland State University</b>	<b>\$746,199</b>	<b>\$650,417</b>	<b>\$509,906</b>	<b>\$601,125</b>	<b>\$479,541</b>	<b>\$166,732</b>	<b>-65%</b>	<b>-74%</b>

### Highlights

- The amount of Research Incentive funds received by the University is based on its level of research expenditures from Federal, Industrial, and Other (as defined in the NSF report) awards as compared to the State University System's total of such expenditures. In order to increase Research Incentive funds, the University must attract additional research funded by these sources. However, it should be noted that even if Cleveland State receives additional funding from these sources, its Research Incentive funding could decrease because other state universities funding increased by a greater amount. To determine our level of Research Incentive funding, the Ohio Board of Regents begins with data taken from the annual National Science Foundation report on Total Research and Development Expenditures.

## Intellectual Property

Contemporary universities committed to teaching, research, service, and dissemination of knowledge increasingly find themselves in a position of having created knowledge or materials with commercial value. Creation of such knowledge or materials, also referred to as intellectual property, is a much coveted outcome of any vibrant research program. Activities that result in the creation of intellectual property raise the reputation of the university and involved researchers. They also create rich educational opportunities for students participating in such programs. Universities may gain significant revenue through commercialized trademarks.

*Table 4.10: Intellectual Property: Patents and Disclosures, Fiscal Years 2006-2011*

Source	FISCAL YEAR						Percent Change	
	FY 2006	FY 2007	FY 2008	FY 2009	FY 2010	FY 2011	1 Year	5 Year
Disclosures	12	9	8	6	6	7	17%	-42%
Non-Provisional Patent Apps. Filed	2	2	6	4	4	3	-25%	50%
Provisional Patent Applications Filed	19	3	5	3	6	5	-17%	-74%
Licenses Approved	-	-	1	-	-	1	-	-

**Source:** CSU Office of Sponsored Programs and Research

**Notes:** 5 Year Percent Change is from the period 2006 to 2011.

The following definitions are from the US Patent and Trademark Office ([www.uspto.gov](http://www.uspto.gov))

**Disclosure:** Description of an invention in a patent or patent application.

**Patent:** Granting of a property right to the inventor, issued by the United States Patent and Trademark Office.

**Licenses approved:** The patent law provides for the transfer or sale of a patent, or of an application for a patent, by an instrument in writing. Such an instrument is referred to as an assignment of license.

## Growth in Graduate Education

Graduate education at Cleveland State has seen unprecedented growth in recent years, from 3,000 students in the 1980's, to 4,000 in the 1990's, to approximately 5,000 students pursuing graduate and post-graduate programs at the University. Such growth in graduate programs has implications for strengthening the quality of these offerings and seizing opportunities for supporting educational goals of students by creating new and tailored program offerings. Growth in graduate programs at CSU points to numerous research opportunities for future students and faculty researchers. Institutional investments in graduate education are closely linked with strategies for promoting sponsored research, which lead to an increased opportunity for the contributions of graduate, doctoral and post-doctoral students.

**Table 4.11: Percentage of Total Student Credit Hours Taken by Graduate Level Students at Selected Ohio 4-Year Institutions-Main Campuses Only, Fall Terms 2007-2011**

Table 4.13: Selected Research &amp; Grant Highlights by College

College	Department	Project Description
Business	Outreach and Business Center	<p><b>Title VI-B Grant:</b> The Monte Ahuja College of Business is in its fourth year of a fourth consecutive Title VI-B grant from the U.S. Department of Education to integrate the principles of sustainability across all international business programs, partnerships, and alliances to ensure a high level of quality, sound financial stability and the capacity to prepare a new generation of leaders, educators, and practitioners with the skills and tools necessary to lead competitive businesses in terms of financial success, social value and environmental quality in today's global market place.</p>
		<p><b>Small Business Development Center (SBDC):</b> The College received \$90,000 from the State of Ohio to run the Small Business Development Center. The Cleveland State University (CSU) SBDC is funded by the Ohio Department of Development (ODOD) and the Small Business Administration (SBA). The CSU SBDC serves Cuyahoga County. The CSU SBDC provides high quality business and economic development assistance to small businesses and nascent entrepreneurs in order to promote growth, expansion, innovation, increased productivity and management improvement.</p>
		<p><b>Small Business Jobs Act:</b> The college received \$79,000 from the State of Ohio for the Small Business Jobs Act. The CSU SBDC is the recipient of additional funding made available through the Small Business Jobs Act to extend the Small Business Administration's (SBA) Recovery Loans for small business owners. These funds expand the current small business assistance services offered through the CSU SBDC at Shaker LaunchHouse.</p>
		<p><b>International Trade Assistance Center (ITAC):</b> The College received \$105,000 from the State of Ohio to run the International Trade Assistance Center. International trade specialists provide export assistance and focus new-to-export businesses and exporters on expanding overseas markets. They promote business development through international market opportunities, increase small business export transactions, export sales, and support future competitiveness.</p>
Education and Human Services	Counseling, Administration and Adult Learning	<p><b>Center for Educational Leadership:</b> Evolved from the nationally recognized First Ring Leadership Academy, the Center offers academic programs to develop and sustain inspired leaders for today's schools. Most notably is the Masters of Education in Organizational Leadership, Ohio's only interdisciplinary Masters Degree leading to Principal Licensure. Also offered are the Education Policy Fellowship Program and the innovative Inspired Leaders Principal Licensure Program.</p>
		<p><b>Career Passport Program:</b> A three year \$1,000,000 USDE, Institute of Education Sciences grant. Developed, refined, implemented and evaluated a career education program for use in urban high school settings as an intervention to prevent school dropouts. Key personnel, public high school teachers, graduate assistants and consultants designed the curriculum. Pilot testing sample lessons were implemented Fall 2011.</p>
		<p><b>Curriculum and Foundations</b></p> <p><b>Gifted Education Enters Cyberspace:</b> The graduate program in Gifted Education is offering all six required courses online, extending outreach to meet teachers' needs in serving gifted, talented, and advanced learners in schools across the country.</p>
		<p><b>Confucius Institute:</b> With the continued support of the Chinese Government, the Institute sponsored K-12 teachers of Chinese, hosted faculty and student exchanges and study abroad programs, provided workshops and materials for teachers, created educational opportunities to learn about Chinese business practices, and staged cultural events.</p>
		<p><b>The Urban Center:</b> Develops proposals and obtains grants for the benefit of the P-16 urban education community and conducts related project evaluations. During the first fiscal year of operation the Center obtained \$2,798,605 in funding from the following 7 awards:</p> <ul style="list-style-type: none"> <li>• MUST STEM Fellows (NSF)</li> <li>• NEO Goes to College . . Now! (OBOR)</li> <li>• Providing Access to the Profession of Nursing in Cleveland: Supporting Students from Disadvantaged Backgrounds (HRSA)</li> <li>• Parent School Climate Survey (Shaker Heights City Schools)</li> <li>• Flipping the Classrooms in NE Ohio (Martha Holden Jennings Foundation)</li> <li>• Careers in Health and Medical Professions (CHAMPS) Kaiser Foundation</li> <li>• Youth Technology Academy: Cleveland's Pathway to Engineering Degrees (NSF)</li> </ul>

College	Department	Project Description
Education and Human Services	Teacher Education	<p><b>Project Reach:</b> A major 5 year grant to improve Cleveland State University's ability to prepare all teachers to provide effective instruction for Limited English Proficient students, professional development for content area teachers to improve academic achievement of Limited English Proficient students, and to become a region that provides strong support in both language acquisition and content learning for all classrooms that serve Limited English Proficient students.</p> <p><b>Highly Qualified Teachers Program:</b> A five year U.S. Department of Education grant to enhance the Special Education Programs. The emphasis is on graduating candidates who meet the highly qualified teacher guidelines under the No Child Left Behind and Individuals with Disabilities Education Act legislation.</p> <p><b>CSUTeach:</b> With the support of the NSF Noyce Scholars Program and Cleveland State's partners (National Math and Science Initiative, UTeach Institute, Ohio STEM Learning Network, and the Cleveland Metropolitan School District) Cleveland State is bringing the UTeach model to Ohio transforming the teacher education experience for pre-service teachers to be licensed to teach grades 7-12, with an emphasis on preparing for underserved, urban classrooms. The Noyce Scholars will be eligible to become licensed STEM teachers.</p> <p><b>Careers in Health and Medical Professions (CHAMPS):</b> An ongoing program developed to recruit minorities into high skill level health care careers by increasing awareness and knowledge. The program provides two or more years of intensive academic enrichment by engaging high school students in skill enhancement, in-depth medical career experiences and thought-provoking science activities while developing them into a unified, cohesive cohort.</p>
Engineering	Chemical & Biomedical Engineering	<p><b>Material World Network: Synthesis and Characterization of Functional Molecular Building Blocks for Responsive Materials:</b> This NSF project has aimed at developing environmentally responsive materials that can generate larger responses with shorter response times than current materials.</p> <p><b>Optical Instrumentation, Non-Destructive Evaluation (NDE), High Temperature Materials and Structures and Numerical Modeling for Advanced Aerospace Application:</b> This NASA project has been carried out via four sub-tasks: propulsion health monitoring system development and instrumentation; integration of NDE and finite element modeling and image visualization; development of acoustics, tomography, and radiography sciences and facilities in operations; and planar optical diagnostics for flow field measurements and optical build up.</p> <p><b>Effect of Convection on Dendritic Array Morphology During Directional Solidification:</b> This NASA project has involved experiments on the International Space Station to understand the role that convection plays in determining the dendritic array morphology and homogeneity.</p> <p><b>Stem Cell Therapy Strategies for Prevention and Treatment of Pelvic Organ Prolapse:</b> This graduate research fellowship grant funded by NSF is investigating the potential for Mesenchymal Stem Cell therapy in the treatment and prevention of pelvic organ prolapse and urinary incontinence.</p> <p><b>Characterizing and Benchmarking Zeolite Absorbents for Oxygen Concentrators:</b> This project aims at improving oxygen concentrators for persons who need oxygen therapy. The heart of these devices is a "molecular sieve bed" which concentrates oxygen from ambient air at 21% to about 98%. CSU's research expertise in gas separation and storage by adsorption and in modeling chemical processes will perfect the next generation portable oxygen concentrators with higher efficiency.</p>
	Civil and Environmental Engineering	<p><b>Feasibility of Expanding Use of Steel Slag as a Concrete Pavement Aggregate:</b> The objective of this FHWA/USDOT project has been to provide guidance to state highway agencies, steel slag producers and suppliers, and paving contractors concerning the potential use of steel slag as an aggregate in concrete for paving applications.</p> <p><b>An Integrated Framework for Creation and Assessment of Sustainable Construction Processes:</b> This NSF project aimed toward reducing the carbon footprint of construction. The research has involved developing metrics, strategies, and case studies for sustainable development.</p> <p><b>Implementation and Assessment of Failure Case Studies in the Engineering Curriculum:</b> This NSF project has aimed at developing a series of failure case study workshops for faculty at many locations in the United States and abroad.</p>

College	Department/Program	Project Description
Engineering	Civil and Environmental Engineering	<p><b>Uncontrolled Concrete Bridge Parapet Cracking:</b> There appears to be wide-spread premature cracking of bridge concrete parapets on relatively recently constructed bridge decks. Cracked parapets are a safety concern and the potential cost to remove and replace parapets could be significant. This ODOT project aims at determining the reasons for uncontrolled bridge deck parapet cracking, and to provide recommendations to ODOT to prevent such cracking in the future.</p> <p><b>University Transportation Center for Work Zone Safety and Efficiency:</b> The goal of this USDOT project has been to better understand driving behaviors and motivations, and establish work zone traffic control best practices and design protocols to save lives.</p> <p><b>Modeling Stress-Strain Relationships and Predicting Failure Probabilities for Graphite Core Components:</b> The aim of this USDOE project has been to study the implementation of an inelastic constitutive model which would yield the requisite stress-strain information necessary for graphite component design using stochastic failure models.</p> <p><b>Elementary Flow at Boulevard: Seeding Inquiry into Engineering:</b> In this project funded by FHWA, elementary school students will be scientifically exposed to transportation engineering. Students will explore the “flow” around them in traffic, transport, and water. The project will also assist teachers to gain content and pedagogic experience in the area of STEM.</p>
	Electrical and Computer Engineering	<p><b>Development of Active Disturbance Rejection Based RF Control for Superconducting Cavities:</b> This project has been jointly conducted by the Center for Advanced Control Technologies (CACT) at Fenn College of Engineering and the National Superconducting Cyclotron Lab (NSCL) aiming at solving problems in superconducting cavities caused by ground vibrations.</p> <p><b>Mobility &amp; Security Support in Disadvantaged Cyber-Physical Systems:</b> This project has been modeling mobility of ground as well as aerial units, such as unmanned aerial vehicles, and proposing mobility support mechanisms and algorithms, and security measures implemented at the physical level of communication protocol as an effective anti-jamming method.</p> <p><b>Biogeography-Based Optimization:</b> This NSF project has aimed at developing new nature-inspired methods for the optimization of engineering systems with applications to power distribution, robot control, and cardiac disease diagnosis.</p> <p><b>Rapid Rehabilitation and Return to Function for Amputee Soldiers:</b> This ODOT project has investigated a new design for a hydraulic prosthetic knee for transfemoral amputees, and also aimed to derive control signals for the prosthesis.</p> <p><b>Automotive Engine Time-to-Torque Optimization:</b> Automobile manufacturers are interested in finding engine controls to take automotive engines from a given initial torque to a desired final torque. This project is using computer intelligence-based methods to solve this problem. This has resulted in an improved time-to-torque by over 75% from the best previously obtained solution.</p> <p><b>Wireless Gesture Recognition Using Inertial Navigation Systems:</b> This project involves the integration of miniaturized sensors in a ring that allows a user to remotely control a computer with finger movements. Potential applications include more convenient control of computer presentations, monitoring physical therapy and other exercises, and monitoring tremors due to Parkinson’s disease.</p> <p><b>Improving the Productivity of the Sensor Network Programmer:</b> This NSF project has investigated ways to make construction and maintenance of sensor network systems accessible to “non-programmer specialists” outside the field of computing, who are the real end users of sensor networks.</p> <p><b>Exercise Monitoring Using Wearable Sensors:</b> This NSF project supports undergraduate researchers who are designing software and hardware solutions for wearable sensors that can be used in a clinical therapy setting for monitoring patients engaged in physical exercise. The goal is to ensure that patients in rehab make positive progress using physical exercise.</p>

College	Department	Project Description
Engineering	Electrical and Computer Engineering	<p><b>Stabilization of Immobilized Enzymes for Implantable Glucose Monitoring Devices:</b> An obstacle for the development of implantable glucose biosensors is the instability of the enzyme immobilized on the electrodes of the sensors as the sensing element. This project funded by the American Diabetes Association has aimed to overcome this problem using a spatial confinement approach.</p>
		<p><b>US-Egypt Cooperative Research: Ultrasmall Silicon Nanoparticle Technology for Renewable Energy Applications:</b> This NSF project aims to substantially advance renewable energy technology. The prototype devices to be built are expected to show enhanced performance in terms of energy harvest efficiency and energy storage capacities.</p>
		<p><b>A Nationwide Consortium of Universities to Revitalize Electric Power Engineering Education by State-Of-The-Art Laboratories:</b> This research project, funded by USDOE, aims at developing state-of-the-art test benches in the field of power for both research and teaching purposes.</p>
		<p><b>EAGER: Towards Next Generation Anonymous Communication Networks:</b> The main objective of this NSF project is to study new architectures for anonymous communications in order to defeat privacy attacks, both passive and active privacy attacks.</p>
	Engineering Technology	<p><b>Wind Spires as an Alternative Energy Source:</b> The wind tower system is aligned with the small distributed wind energy systems initiative of the USDOE aimed for conversion of wind energy into electricity at geographic sites where the wind speed is relatively low. A functional prototype of the system has been installed at CSU campus and operates as predicted.</p>
	Mechanical Engineering	<p><b>Non-Destructive Evaluation and Structural Health Monitoring of Advanced Composite Materials and Propulsion Systems:</b> The goal of this NASA project is the development and application of nondestructive evaluation techniques for advanced aerospace materials and components. The techniques should distinguish and quantify the types and extent of material manufacturing defects and mission exposure damage.</p>
		<p><b>Smart Health Monitoring of Rotating Components Using Active Magnetic Force Actuators:</b> This NASA project has aimed at developing and experimentally demonstrating the feasibility of a new approach to smart health monitoring based on nonlinear vibration diagnosis using spectral non-synchronous excitation force.</p>
		<p><b>Robust Model-Based Fault Diagnosis for Propulsion System Components with Uncertainties:</b> This NASA project focuses on the identification of structural faults for propulsion components or entire system described by the model which can be uncertain. The model-based identification is based on derived transfer functions, generated from an analytical model or directly measured. To identify the structural damage, the robust control tools are applied to extract the missing component/system dynamics due to localized damage. Results of this research can find direct applications in structural health monitoring of aircraft engines or other propulsion systems.</p>
		<p><b>Adaptive Sliding Mode Control Strategies for Fast Engine Response:</b> This NASA project seeks to design control systems capable of covering the entire flight envelope under normal conditions, while allowing enhanced thrust modes to be activated for maneuvers such as yawing by differential thrust control. These maneuvers are used in emergency situations such as loss of rudder control.</p>
		<p><b>Commercialization of Inline Heater for Use in Photovoltaic Solar Cell Manufacturing:</b> This 3rd Frontier grant from the State of Ohio will use computational fluid dynamics to examine the performance of an ultrapure, low cost, intrinsically safe inline chemical/water heater utilizing PTC heating element. The heater will be designed to meet the specifications and requirements of the photovoltaic industry.</p>
		<p><b>Experimental and Computational Investigation of Unsteady Endwall and Tip Gap Flows in Gas Turbine:</b> This NASA – US Naval Academy project aims at better understanding complex flows in the endwall regions of gas turbine passages under a variety of tip gaps or endwall treatments. Computational unsteady 3D studies will be performed and validated by experimental studies.</p>

College	Department	Project Description
Liberal Arts and Social Sciences	Art	Two Art faculty members completed new work in photography and painting with the assistance of grants totaling \$60,000 from the Ohio Humanities Council and the Cuyahoga Arts and Culture program. Another Art faculty member presented her new sculpture at an exhibition in Venice, Italy. Music faculty members presented commissioned performances and compositions in a broad array of national and international sites, including Princeton University, Cornell University, Northwestern University, the University of Michigan, and St. Andrews, Scotland.
	Humanities	An American Council of Learned Societies academic year fellowship for \$51,000 has enabled a History faculty member to continue his study of the latent culture of homosexuality in China, about which he has already published one research monograph. The Center for Public History and Digital Humanities received a grant of \$50,000 from the National Endowment for the Humanities in order to develop and extend the technology of its novel "Cleveland historical" mobile application (now averaging over 7,000 hits per month) for public curatorial work in other localities. They are currently working on contracts from across the nation, ranging from Spokane in the West, New Orleans in the South, Baltimore in the East, and a number of nearby sites, including Shaker Heights and Medina.
	Social Sciences	The Criminology Research Center Director is co-investigator on a grant of \$198,000 from the National Institute of Justice in order to conduct a joint study in several urban locations of how forensic evidence is used in homicide investigations. Another criminologist has had his recent book on social control theory republished in Italian and Chinese. A Social Work faculty member completed the reporting of his study of a local population of youthful offenders with the publication this past year of one book and eight journal articles. The Director of the School of Communication received the best new book award from his national professional association.
School of Nursing	Nursing	<b>Nurse Faculty Loan Program (NFLP):</b> Funding from HRSA enables CSU to offer forgivable loans to MSN and PhD Nursing candidates who plan to embark upon a career in Nursing education after graduation.
		<b>Choose Ohio First Nursing Scholarship Initiative:</b> In partnership with Case Western Reserve University, University Hospitals and Cleveland Clinic, the School of Nursing provided scholarship support and mentorship for a select group of Fellows enrolled in master level programs for those students with the potential and commitment to go on to doctoral study.
		<b>Providing Access to the Profession of Nursing in Cleveland:</b> Supporting Students from Disadvantaged Backgrounds: This HRSA grant provided tuition assistance to eligible nursing students in support of their efforts to become outstanding professional nurses.
		<b>Partners Investing in Nursing's Future:</b> Expanding the Number of Non-traditional Nursing Educators Through On-Line Education: In partnership with Kent State University and the Cleveland Foundation, this grant provided tuition and program development funding for a graduate nursing class to teach professional nurses effective teaching techniques for on-line classes. The intention is to expand the number of Nursing Faculty available to teach in on-line Nursing programs.
		<b>Evaluating the Use of Human Patient Simulation to increase Critical Thinking Competencies and Perceived Self-Confidence of New Graduate Nurses in the Intensive Care Unit:</b> In partnership with The Cleveland Clinic this grant from the National Council of State Boards of Nursing aims to research the utilization of high-fidelity simulation to advance clinical reasoning and patient problem management in the ICU nurse.
		<b>Lecture: From Passive to Active Learning through Technology:</b> Three faculty members collaborated on this teaching innovation project to design and pilot a multimedia presentation approach to teaching nursing students how pathophysiology impacts normal physiology. Additional modules are being prepared.
		Through funding from the Donna Karan Urban Zen Foundation and in partnership with Kent State University, and Ursuline College, the School of Nursing is examining ways in which self-care practices can be taught to nursing students and the extent to which their use decreases the stress encountered in the profession.

College	Department	Project Description
Sciences and Health Professions	Mathematics	<b>Gutflora dependent metabolism of dietary phosphatidycholine contributes to cardiovascular disease.</b> Faculty publication in Nature as part of a collaboration with cardiology researchers at the Cleveland Clinic.
		<b>Topological Complexity, Fibrewise Homotopy, Rational Homotopy.</b> Travel supporting a research collaboration in algebraic topology for four years (Simons Foundation).
		<b>MUST STEM Fellows.</b> A collaboration with the College of Education to provide scholarships for students to retrain as secondary mathematics and science teachers (National Science Foundation).
		<b>Dual Credit Program Creation.</b> A partnership with the College of Education and Kent State University to develop an 18 credit graduate program to certify teachers to offer dual high school and college-level courses (Ohio Board of Regents).
Physics		<b>Partnership with Northern Ohio Trauma Systems at Metro Hospital.</b> Faculty and graduate students are collaborating with physicians at Metro Hospital on research related to trauma patients.
		<b>Fluid flow is an environmental modifier of ADPKD.</b> A study as to how the primary cilium senses the state of fluid flow to act as a complex signaling center (National Institutes of Health).
		<b>Synthesis, structure &amp; swelling properties of a potential drug delivery system: Polysaccharide microgel nanoparticles.</b> Development of non-carcinogenic, stable, reusable microgel nanoparticle that is sensitive to environmental stimuli and can serve as a reservoir for controlled drug delivery and release (Research Corporation).
		<b>Acquisition and operation of a field emission microscope (FE SEM) facility.</b> A Major Instrumentation Grant (National Science Foundation).
Chemistry		<b>Nonlinear Analysis of ECG Time Series of Patients with Epilepsy and Pseudoseizures.</b> Collaboration with Epilepsy Center, Dept of Neurology, CCF to use the mathematical theory of coupled phase oscillators [Kuramoto model] to characterize heart-rate variability of patients and physiological processes controlled by the autonomous nervous systems on times scales 10 s or longer.
		<b>The Role of RNase L in the Pathogenesis of Inflammatory Bowel Disease.</b> (National Institutes of Health)
		<b>Acquisition of an NMR Spectrometer.</b> A Major Research Instrumentation grant (National Science Foundation).
		<b>Acquisition of a Field Emission Scanning Electron Microscope for Multidisciplinary Nanotechnology Research.</b> A Major Research Instrumentation grant with Physics (National Science Foundation).
BGES		<b>Choose Ohio First for Improved Education of Pre-Medical Students at Cleveland State.</b> As part of a consortium grant of multiple Ohio universities (Ohio Board of Regents).
		<b>Immobilized Nanostructured Catalyst for Ultra-Sensitive Nitric Oxide Detection.</b> Patent awarded by the United States Patent and Trademark Office.
		<b>Structure of nascent peptides and kinetic control of co-translational folding on the ribosome.</b> A 3-year, interdisciplinary research program involving researchers from Max Planck Institute of Biophysical Chemistry (Goettingen, Germany) and Johann Wolfgang Goethe University (Frankfurt, Germany) and led by CSU that aims to understand the key mechanisms of the protein synthesis and folding in the cell (Human Frontiers Science Program).
		<b>Circadian clock and dietary restriction.</b> The role of an internal time keeping system, known as the circadian clock, in the regulation of longevity and age-associated pathology (National Institute on Aging).
		<b>Conservation of native freshwater mussel refuges in Great Lakes coastal zones.</b> (Great Lakes Fish and Wildlife Restoration Act).
		<b>Nikon A1RSI Confocal Microscope.</b> A state-of-the-art multiphoton-ready spectral confocal microscope system that will allow all cellular and molecular biological researchers to obtain hi-res images of live cells and their contents (National Institutes of Health).

College	Department	Project Description
Sciences and Health Professions	Psychology	<b>Partners in Dementia Care.</b> Study of psychosocial interventions for individuals with dementia/memory loss and their family caregivers (Alzheimer's Association, Veteran's Administration, Robert Wood Johnson Foundation).
		<b>Strength-Based Intervention for Dyads with Mild Dementia.</b> Examination of intervention with caretakers and patients with dementia (National Institute on Aging).
		<b>Examining Direct Service Worker Turnover in Ohio.</b> Study of factors predicting turnover of individuals providing direct care to the elderly and individuals with disabilities (Centers for Medicare and Medicaid).
		<b>Understanding PTSD in Pregnant Women.</b> An exploration of the impact of stress on mothers and newborns (Faculty Research Development Award).
		<b>Auditory perception of drug names.</b> Examination of neighborhood effects on perceptions of drug names (US Agency for Healthcare Research and Quality).
		<b>Spatial Navigation by Patients with Parkinson's Disease.</b> Neuroscience of impaired and preserved spatial navigation abilities (Faculty Research Development Award).
		<b>Project SHAKTI. Stigma Reduction and Transgender Issues.</b> Study of health care provider awareness and knowledge of transgender issues in India (National Institutes of Health).
Health Professions		<b>Assessment of Mood and Cognitive Functioning in Older Adults.</b> Examination of functioning in older adults with bipolar and unipolar depression who are undergoing electroconvulsive therapy (Morley Foundation).
		<b>Every Moment Counts: Promoting Mental Health Throughout the Day.</b> The focus of this project will be on preparing school-based occupational therapy practitioners to integrate a public health approach to mental health into practice (Ohio Dept of Education)
		<b>Validation of Traditional Medicine in a North-South Indigenous Collaboration.</b> CIET International, an aboriginal/indigenous people health promotion entity.
		<b>Mental health promotion, prevention, and intervention for children and youth: A guiding framework for occupational therapy.</b> Textbook published by the American Occupational Therapy Association, Inc.
		<b>Guided, activity-based gaming in neurorehabilitation post stroke.</b> Published in Stroke Research and Treatment. Use of computer gaming during outpatient stroke rehab including motion analysis evaluations (Faculty Research Development Grant).
		<b>Well-Being of College Students with Disabilities.</b> Study exploring the relationship between occupational engagement and well-being of college students with disabilities.
		<b>Balance Training.</b> Methods to rate components of balance training; comparisons of responses in balance control.
		<b>Obstacles in the Optimization of Bone Health Outcomes in the Female Athlete Triad.</b> Published in Sports Medicine.
		<b>Impact of body image on depression and quality of life among women with breast cancer.</b> Published in Journal of Psychosocial Oncology.

College	Department	Project Description
College Of Urban Affairs	Urban Research & Public Policy	<p><b>Center for Community Planning and Development</b> Revitalizing Distressed Older Suburbs, July 2011.</p> <p>This report focuses on predominantly minority suburbs of older, large industrial cities, communities that once were thriving but are now severely distressed and have limited capacities to respond to increasing needs. It supplements census information with a deeper understanding of the underlying forces shaping distressed, older suburbs. It also contributes to a growing body of literature on suburbia in general and on older, inner-ring suburbs in particular. Funded by the Urban Institute's What Works Collaborative; amount, \$45,000.</p>
		<p><b>Center for Community Planning and Development &amp; Center for Leadership Development</b> Sustainable Cities, Sustainable Communities (SC2) Fellowship program December 2011.</p> <p>The Levin College received a \$360,000 grant to be part of a national team with the German Marshall Fund and Virginia Tech to run the SC2 Fellowship Program. SC2 is a federal interagency pilot initiative that aims to strengthen neighborhoods, cities, and regions by enhancing the capacity of local governments to develop and implement economic visions and strategies. The fellowship program will place highly motivated, mid-career professionals in local government agencies in seven pilot cities for a two-year fellowship period.</p>
		<p><b>Center for Economic Development</b> An Analysis of The Economic Potential For Shale Formations In Ohio, May 2012.</p> <p>For the first time in over 100 years, Ohio finds itself on the threshold of not only being self-sufficient in the production of oil and gas, but also possibly even being a hydrocarbon exporter. This dramatic renaissance in Ohio's oil and gas industry comes courtesy of new drilling and completion technologies that has enabled oil and gas producers to extract hydrocarbons from shale reservoirs that heretofore were considered uneconomical to produce, due to the impermeability of the shale formations. Funded by Ohio Chamber of Commerce (on behalf of Ohio Shale Coalition); amount, \$125,000.</p>
		<p><b>Remix Cleveland: The Cleveland Music Sector and Its Economic Impact Executive Summary / Full Report</b>, October 2011.</p> <p>This study was commissioned by the Community Partnership for Arts and Culture (CPAC) as a starting point for gaining a deeper understanding of the different sectors of the Cleveland arts scene in Cuyahoga County. Its objective is to understand the Cleveland Music Sector, delineate its components, learn its dynamics, and assess the economic impact of music events and venues in Cuyahoga County. Funded by Community Partnership for Arts and Culture; amount, \$73,950.</p>
		<p><b>Center for Nonprofit Policy &amp; Practice</b> Youth Opportunities Unlimited Measureable Outcomes Project (Impact Study), December 2011.</p> <p>This project assessed the community efficacy of the YOU organization. The study also provided recommendations of tracing the impact of its program based upon long-term performance of its graduates. The project included a related Levin Forum on March 6, 2012, and was funded by Youth Opportunities Unlimited (YOU); amount, \$25,000.</p>
		<p><b>Center for Public Management Consolidated Dispatch Center Feasibility Study</b>, November 2011.</p> <p>The report provides an assessment of the feasibility of consolidation of public safety dispatch for three scenarios or combinations of entities in Ashland County, Ohio and Wayne County, Ohio, including the cities of Ashland and Wooster. The report describes the methodology used to assess the feasibility and provides an overview of four case studies of consolidation dispatch centers in Ohio.</p>

College	Department	Project Description
College Of Urban Affairs	Urban Research & Public Policy	<p><b>Case Studies for Consolidated Public Safety Dispatch Center Feasibility Study: The Next Steps</b>, August 2011.</p> <p>This report includes case studies of consolidated dispatch centers in the United States. The results suggest that, although the experiences among consolidated dispatch centers varied, the elements that should contribute to a successful transition are strong leadership, communication with affected employees, ability to compromise, consistency in treatment of employees, development of standard operating procedures, stakeholder inclusion, and beginning consolidation with a clear plan that treats all participants as equal partners.</p> <p>Both projects funded by the Ohio Dept of Development and City of Parma; amount: \$35,724.</p>
	Department of Urban Studies	<p><b>Department of Urban Studies Development of Vanadium Redox Battery Technology.</b> Funded by National Science Foundation; amount, \$80,000.</p> <hr/> <p><b>Establishing a Volunteer Center at CIS: Concept, Implementation, and Results: Addendum.</b> Funded by CSU Education; amount, \$5,000.</p> <hr/> <p><b>Establishing a Volunteer Center at CIS: Concept, Implementation, and Results.</b> Funded by CSU Education; amount, \$20,000.</p> <hr/> <p><b>Asset Education and Nonprofit Organizational Effectiveness.</b> Funded by Kresge Foundation; amount \$25,000.</p> <hr/> <p><b>Evaluation of Cleveland State University/NEOMED Education For Service Program.</b> Funded by Saint Luke's Foundation, \$18,000.</p> <hr/> <p><b>Shaker Heights School District Parent Climate Survey</b> Shaker Heights School District, \$20,000.</p> <hr/> <p><b>Cleveland's Food Swamps.</b> Funded by National Institutes of Health/MetroHealth/Case Western Reserve University Center for Reducing Health Disparities; amount, \$5,000.</p> <hr/> <p><b>Phase II Population Protection project.</b> Funded by Cuyahoga County Office of Emergency Management; amount, \$150,000.</p> <hr/> <p><b>GCRTA: Before and After.</b> Funded by Federal Transit Authority/GCRTA; amount, \$25,410.</p>

**Enrolled:** represents the number of cohort students enrolled as an undergraduate in a given term excluding those who have received a bachelor's degree from CSU prior to the reported term.

Note: Cohort Definition

1) A student attending any institution of higher learning for the first time at the undergraduate level includes students enrolled in the fall term who attended college for the first time in the prior summer term and students who entered CSU with advanced standing (college credits earned before graduation from high school).

2) By the university census date, the student has registered for 12 or more credit hours in the fall semester.

3) The student is seeking a baccalaureate degree.

BOOK OF TRENDS  
CLEVELAND STATE UNIVERSITY

## Honors Program

Cleveland State University inaugurated its new Honors Program in Fall 2004 with a class of 40 highly motivated, academically talented first-year students. As of Fall 2011, the enrollment in this program has grown to approximately 200 students.

Freshmen admitted to the program receive renewable scholarships covering up to 16 hours of tuition. Juniors admitted to the program receive renewable scholarships of \$5000 per academic year. Honors students accept the challenge of participating in intensive and specialized versions of general education classes, and are granted special consideration in several areas including preference in registration and extended university library borrowing privileges. During Summer 2011 and 2012, many Honors students were engaged in paid on-campus undergraduate research experiences. Honors students enroll in at least four honors core courses during their freshman and sophomore years at CSU. These courses offer greater breadth or depth than standard university general education classes. Enrollment is limited to Honors students and class sizes are small.

As juniors and seniors, Honors students focus on their majors. Upper division Honors students have the opportunity to do additional honors work under faculty supervision in established courses, enroll in graduate courses, participate in a faculty member's research project or laboratory, do an independent research project, a service learning project, and/or an internship, job, or engage in a co-op experience. The specific program depends on the student's major.

Beginning Fall 2005, transfer students and current CSU students entering their junior year have been admitted.

First year students admitted in Fall 2004 were chosen from among applicants who were in the top 10% of their high school class or had a composite ACT score of at least 27 (90th percentile). New first year admits for Fall 2007 and later must be in the top 10% of their high school class or score at least a 30 on the ACT (97th percentile).

### Major Features of the Honors Program

- Enriched curriculum
- Leadership development
- Honors community and experiences

SAT Composite <sup>3</sup>	1235	1802	1953	1815	1943	7%	57%

Notes: Honor student data reported in this table are provided by the Honors Program Office.

Cohort Year includes newly admitted students in both lower and upper levels.

High School ranking, GPA, ACT and SAT scores reported are for "active" and "lower level" students only.

<sup>1</sup> Total is not the sum of the students due to "dual" majors.

<sup>2</sup> For cohort year 2008, although top 10% HS ranking is indicated as 55% there were 10 students who came from schools that do not rank their students.

For Cohort 2011, 17 students came from Schools that do not rank their students.

<sup>3</sup> SAT Composite score are the sum of "Math & Verbal" for years 2005 to 2007, for subsequent years, all three components (Math, Verbal, & Writing) are included.

**Table 6.3: IPEDS Cohort Characteristics**

According to the U.S. Department of Education, and the Integrated Postsecondary Education Data System (IPEDS), the Freshmen Cohort Definition must meet the following criteria: 1) A student attending any institution of higher learning for the first time at the undergraduate level, includes students enrolled in the fall term who attended college for the first time in the prior summer term, also includes students who entered CSU with advanced standing (college credits earned before graduation from high school). 2) By the university census date, the student has registered for 12 or more credit hours in the fall semester. 3) The student is seeking a baccalaureate degree.

**Table 6.3a: Average ACT Composite Scores by College for IPEDS Cohort Students**

Cohort		Business	CLASS	Education	Engineering	Nursing	Undergraduate Science	Undergraduate Studies	Urban Affairs	University	Total Cohort	% of Cohort with ACT/SAT
Fall 2007	Total Students	141	265	83	104	32	187	272	10	1,094	1,132	97%
	Average ACT	21.0	20.8	19.1	22.9	22.3	21.1	16.4	20.2	19.9		
Fall 2008	Total Students	139	261	105	103	52	199	107	3	969	1,007	96%
	Average ACT	20.7	21.2	19.4	23.4	22.5	21.6	17.6	20.0	20.9		
Fall 2009	Total Students	142	297	119	117	41	240	106	5	1,067	1,127	95%
	Average ACT	20.8	20.8	19.5	23.5	22.1	21.3	17.4	17.6	20.8		
Fall 2010	Total Students	122	332	83	126	115	274	35	7	1,094	1,148	95%

Notes: This table only reflects lecture, seminar and studio courses with 5 or more students enrolled.

\*'Other' includes weekends (Friday after 4pm, Saturday and Sunday) and sections with no class time. Cross listed courses are counted once only.

Day, Evening and Weekends are determined by meeting time. Some web courses may be included due to available meeting time.

Day: Monday – Friday 7 am to 4 pm.

Evening: Monday – Thursday 4 pm to 12 am.

**Notes:**

**Days:** Monday – Friday 7 a.m. to 4 p.m.

**Evenings:** Monday – Thursday 4 p.m. to 12 a.m.

**Weekends:** Classes start after Friday 4 p.m., Saturday and Sunday.

\*Unknown includes sections with no class time.

**Source:** All figures are taken from census files.

## Center for eLearning

In 2006 the Center for eLearning was established to lead the University's eLearning initiative. The Center has the goals of increasing University enrollments and enhancing academic quality through fully online degree and certificate programs available.

The Center's major roles are to:

- Provide leadership for the University's eLearning initiative
- Support and train faculty in designing and developing fully online, blended, and Web-enhanced courses
- Work with academic units on eLearning program development and marketing
- Lead in the use of emerging eLearning technologies
- Ensure availability of information and services for online students

Since its establishment, the Center has worked energetically to create a solid support infrastructure for eLearning and to expand the number of programs and courses offered in online or blended formats. As the charts below show, substantial growth in eLearning enrollments has occurred as more online and blended courses are being offered. Enrollments in eLearning courses have continued to grow rapidly, new programs have joined the group of programs already offered online, and support for both faculty and students is strong.

\* In Spring 2008, the process was changed to use the Class Attribute Table for those Classes listed as ONLINE and/or BLENDED.

\*\* In 2008-09 and going forward, the process will use the Class Attribute Table for extracting Enrollment and SCH information for Annual Web Enrollment and SCH Trends.

**Note:** Enrollment and SCH is based on those students who did not have a withdrawal date for a Web Based Course.

Enrollment within each semester is unduplicated, but Total may be duplicated if a student was enrolled in multiple terms over the year.

\*\* Web-based: Courses delivered primarily using the Internet. These courses are identified by section number (501-509) for Fall 2004-2007, or by their class attribute (Online and/or Blended) for Fall 2008 and going forward.

## Trends in Interactive Video and Telecourse Instructional Delivery

The rapid growth in distance delivered student credit hours illustrates the important role distance learning plays today at many institutions, including Cleveland State. New technology, equipment, growing faculty interest, and support services at CSU have led to an increase in courses offered, the number of students enrolled, and smoother instructional delivery. Faculty development workshops and individual training and support in conducting interactive video classes along with creating web-based classes have been instrumental in developing these courses. Interactive video hook-ups now link our extended campuses and partner schools with the Main Campus, providing students the opportunity to take a class at another site which might not have been possible in the past. Web-based courses provide even more scheduling flexibility.

## Learning Communities – Cleveland Transfer Connection

CSU launched an impressive and successful Learning Communities initiative in 2007 with the award of a \$2.5 million Title III grant from the US Department of Education. These funds enabled us to research, develop and pilot 50 Thematic Learning Communities featuring innovative approaches to teaching and learning for the digital age and global society. The implementation involved over 200 CSU courses from five undergraduate colleges that were enhanced using cross-disciplinary collaborations, interdisciplinary pedagogical strategies, new instructional technology, service learning and undergraduate research adding sustainable value to students and to the University. Over 800 CSU students had the benefit of participating in a high impact learning community.

Faculty engagement was very high with over 125 CSU faculty instructors, including eight Fulbright Scholars, participating in professional development experiences. Having the opportunity to interact with colleagues contributed to creative and collective action and deep learning for student success. It also reflects a strong commitment and investment in faculty development as a component of student retention and success. Capacity building was an important consideration and was achieved through the use of various formative and summative assessments identifying “best practices” for expanded use. Three presentations were accepted and delivered at different annual National Learning Communities Conferences. A Journal of Engaged Learning was published including eleven reflective articles written by learning community instructors making knowledge gained accessible to the larger community of higher education.

## Cleveland Transfer Connection (CTC)

Building upon the experiences and success of the CSU learning community initiative, in 2009 we successfully launched the Cleveland Transfer Connection Program, a cooperative initiative between CSU and Cuyahoga Community College designed to promote academic success and increase college graduation rates. Cleveland Transfer Connection offers the benefit of a systematic process of course completion that leads to transfer-readiness and contributes to retention and degree completion. In this unique partnership program students begin their college years enrolled in learning communities at the community college to earn an Associate's Degree then transfer to CSU to complete the Bachelor's Degree in a total of 4-5 years. The program is customized for students who are entering advance level course work. The first cohort of 87 Cleveland Transfer Connection students entered the program in 2009 and 57 (66%) will transfer to CSU for Fall 2012 classes.

Source: All figures are taken from the IPEDS/EAP files as of November 1.

Note: Non Resident Aliens are reported in the actual ethnicity categories.

Please see that Asian/Pacific Islander was split into two categories.

Also a new category of two or more races was added per Federal Reporting Rule Changes.

Note: Yield is calculated as the percent of those enrolled from the total admitted.

Note: Nursing includes all Pre-Nursing Plans (PNURS & PEHSN).

Note: Students in this table are grouped based on their intended major at the time of application. The "admitted" and "enrolled" numbers reflect those who were admitted to the university, and those who enrolled at the university, not necessarily to a given school.

Source: Institutional Research

Note: Yield is calculated as the percent of those enrolled from the total admitted. Note: Nursing includes all Pre-Nursing Plans (PNURS & PEHSN).

Note: Students in this table are grouped based on their intended major at the time of application. The "admitted" and "enrolled" numbers reflect those who were admitted to the university, and those who enrolled at the university, not necessarily to a given school.

**Source:** Institutional Research **Notes:** Yield is calculated as the percent of those enrolled from the total admitted. \*With the start of Fall 2007, the definition of students counted in applied, admitted and enrolled categories represents a departure from the past and has been expanded to include multiple applications and admit records for each student. The new counting process provides a more complete picture of students' interest in CSU programs and an accurate representation of all the programs to which a student is admitted as seen in tables 8.1 to 8.6. The above tables should be used to gauge headcount for the unduplicated applied, admitted, and enrolled at the University Level.

# Office of Advancement

## CSU Foundation

Alumni, faculty, staff, friends, corporations and foundations support Cleveland State University each year with philanthropic gifts. These gifts provide additional resources that are necessary for sustaining a high quality educational experience for the University's diverse student body. Various appeals and initiatives are conducted through the Annual Giving Program, including direct mailings to all alumni, student phonathon drives, specialized mailings from various departments within the University, an annual appeal among the faculty and staff of Cleveland State University, and collaboration with multiple special events held both on and off campus.

### Philanthropic Highlights: 2011-2012

- Cleveland State University secured more than \$2.4 million for scholarships; the number of endowed scholarships increased from 261 to 272.
- Radiance, CSU Realizing the Promise raised \$504,300 for student scholarships, surpassing its first year total of \$377,000. Radiance scholarships will be awarded to undergraduate students in good academic standing who are at risk for dropping out of school because of finances.
- Alumnus Robert P. Campanella made a \$2.5 million will commitment to benefit students in engineering, business and the physical sciences.
- The Parker Hannifin Corporation pledged \$1.5 million to establish the Parker Hannifin Chair in Human Motion and Control in the Fenn College of Engineering.
- The Urban Primary Care Initiative, a CSU/Northeast Ohio Medical University (NEOMED) collaboration to educate primary care physicians to serve urban areas, received generous community support. Funds include \$1.5 million from the Cleveland Foundation, \$500,000 from the Mt. Sinai Health Care Foundation, \$198,000 from Kaiser Permanente, \$35,000 from the Martha Holden Jennings Foundation and \$25,000 from St. Vincent Charity Medical Center.

### Highlights

- The men's basketball team advanced to the postseason for the fourth time in the last five years under head coach Gary Waters. Led by second team All-Horizon League selection Trey Harmon, the Vikings played in the NIT and won 22 games, the ninth 20-win season in program history.
- The women's tennis team finished as the Horizon League runner-up for the second straight season and tied the school-record by going 7-1 in the Horizon League for the second consecutive season.
- The women's soccer team won a program-record 10 matches as senior Natalie Daniels earned all-league honors for the fourth time in her career. She finished her time at CSU as the program leader in goals (19), assists (19) and points (57).
- The women's cross country squad recorded its highest finish in school history at the Horizon League Championship, placing fourth overall. In addition, the team was recognized by the NCAA for an Academic Progress Rate score in the top 100% nationally and the 34th highest grade point average among cross country teams in the nation.
- Both the men's and women's swimming and diving teams claimed runner-up finishes at the Horizon League Championship. The teams combined to have six student-athletes earn Mid-Major All-America honors.
- A total of 135 student-athletes were honored at the 22nd annual John Konstantinos Athletic Academic Honors Luncheon in March for maintaining a cumulative grade point average of 3.0. Volleyball senior Megan Barhorst received the President's Award as the graduating senior with the highest grade point average, sporting a 3.95 GPA as an art major.

## Financial Aid Office

### Cleveland State University's Financial Aid Programs

Financial aid is money that is provided to help bridge the gap between students' own resources and the amount of money needed to pay the cost of attending college. Approximately 71 percent of Cleveland State's students receive some form of financial assistance. The University participates in or administers all of the major federal and state grant and loan programs. In addition, Cleveland State provides University grants and scholarships.

**Table 8.15: Financial Aid Awards to Undergraduate Students by Full-Time/Part-Time Status, Average Aid Package and Academic Year**

	Academic Year					Percent Change	
	2007-08	2008-09	2009-10	2010-11	2011-12	1 year	5 year

**Source:** Common Data Set, H2-row D and row J

Financial aid reported reflects awards to undergraduates enrolled in the fall term of the academic year. Although the university awards a substantial amount of financial aid to additional students, this data reflects a particular point in time by using standard figures as defined by IPEDS (<http://nces.ed.gov/ipeds/>) and the Common Data Set ([www.commondataset.org](http://www.commondataset.org)).

# Financial Aid Office

## Notes

The undergraduate financial aid reported reflects awards to undergraduate students enrolled in the fall semester of the academic year. The university awards financial aid on a continuous basis throughout the academic year. However, this data reflects a specific point and time as defined by IPEDS <http://nces.ed.gov/ipeds/datacenter> and the Common Data Set ([www.commondataset.org](http://www.commondataset.org)), generally accepted as the 15th day of fall semester.

For financial aid calculations; full-time undergraduate, graduate and law students are those enrolled for 12 or more credit hours. Part-time undergraduate students are enrolled for 11 or fewer credit hours. Part-time graduate and law student enrollment ranges from 6 to 11 credit hours.

The "Cost of Attendance" tables reflect the estimated average cost of attendance for a full-time, in-state student attending CSU for two (2) semesters during the academic year, and includes estimated tuition and fee charges, books, allowances for room and board, transportation and personal/miscellaneous.

## Types of Financial Aid

**Federal Grants:** Pell Grant, Supplemental Opportunity Educational Grant (SEOG). TEACH Grant.

**State Grants for Undergraduates:** Ohio College Opportunity Grant (OCOG) and Other State tuition grant programs.

**State Aid for Graduate/Law Students:** Graduate and Professional Fellowship.

**Scholarship/Institutional Grants for Undergraduates:** Refer to <http://www.csuohio.edu/enrollmentservices/financialaid/scholarships>.

**Scholarship/Institutional Grants for Graduate/Law Students:** Includes Graduate Assistantships, Tuition Waiver and Scholarships.

**Non-Institutional Aid:** Assistance awarded from external agencies.

**Federal Student Loans:** Stafford subsidized/unsubsidized and Federal Perkins loans.

**FWS:** A federally-funded student employment program established to assist students through part-time, on-campus positions or off-campus community service positions.

## Center for International Services & Programs

### International Services

The Center for International Services & Programs (CISP) seeks to build a globally oriented, metropolitan university where students, faculty and staff gain international knowledge and experience. Established in 1996 as a separate department, CISP provides international students and visitors with a wide array of support services to help them achieve a positive learning experience while in the U.S. A second focus for CISP is supporting Study Abroad opportunities for U.S. students. This is accomplished by supporting Faculty led short term programs, assisting students in identifying study abroad options, administering scholarships and other related education abroad initiatives. Thirdly is to develop and support international academic initiatives within each department and college. The department is key to advising faculty and students on Fulbright opportunities.

A full description of services can be found at: <http://www.csuohio.edu/offices/international>.

College	Academic Initiatives	Activities
Liberal Arts & Social Sciences (CLASS)	Middle Eastern Studies Program	Presently developing a Study Abroad option which will include language and culture studies. Have applied for a Fulbright Scholar in residence grant.
	Masters Program in Global Interactions	Prepares students for a career in a global environment through an interdisciplinary set of courses. International Relations majors will concentrate in an in-depth study of one of the following areas: International Business and Economics, Asia Studies, Central and Post-Soviet States, Africa and the Middle East, or Latin America and the Caribbean.
	Modern Languages	Arabic courses, Chinese courses, English Translations of Foreign Literature (ENF) courses, French (B.A.), German (B.A. - suspended) minor, Greek courses, Italian courses, Japanese courses, Latin courses, Modern Language (culture; or languages such as Portuguese, Russian, or Quechua) courses, Spanish (B.A.).
	Interdisciplinary Studies	Slovenian Studies Center is created in conjunction with the government of Slovenia, CSU, LCC, KSU, BGSU. Courses will be offered in Slovenian culture and language.
Business	Expand international business education and outreach services in Northeast Ohio	Global Trade Scholar program; Provide market research, international trade and investment assistance; Improve credit transfer between community colleges and CSU for international business degree programs. Recently signed agreements with Friedrich Alexander University, University of Lubjana School of Economics.
Business & CLASS	Faculty Led Short Programs	Study Tour of Chile Study Tour of German Study Tour of Paris Explore the Auvergne Region and Paris International Marketing and Business Research in England Study trip to Japan, they have also added trips to Abu Dhabia and China Language and Culture in Mexico Language and Culture in Costa Rica Study in Spain
Education & Human Services	Confucius Institute	Providing programming in Chinese Language K-12 Instruction throughout the greater Cleveland area. Special Program to China for Students of Leadership Academy and Cleveland Heights School District. They continue to develop a Chinese as a Second Language Certificate
Engineering	New Academic Program	Developed a 3+1+1 academic program in Electrical Engineering, Applied Biomedical Engineering and Software Engineering with Bahcesehir University in Turkey. A group of students have done Engineers without Borders to Belize.
Law	Indian Certification	CSU Law School Degree recognized in India.
Sciences & Health Professions	China Joint Degrees	Shenyang Pharmaceutical, Three Gorges University, Guangxi Teacher Education, and Guangxi University

# Accreditation

Cleveland State University is accredited by the Higher Learning Commission, a commission of the North Central Association of Colleges and Schools (NCA).

College	Degree/Program	Accreditation
<b>Business</b>	Bachelor of Business Administration	AACSB International, The Association to Advance Collegiate Schools of Business
	Master of Business Administration	
	Doctor of Business Administration	
	Master of Labor Relations & Human Resources	AACSB International, The Association to Advance Collegiate Schools of Business
	Accounting (undergraduate & graduate)	
<b>Education and Human Services</b>	College of Education and Human Services	The National Council for the Accreditation of Teacher Education (NCATE) and approved by the Ohio Department of Education
	Community Agency Counseling and School Counseling	Council for Accreditation of Counseling and Related Educational Programs (CACREP)
	Master of Public Health	Council on Education for Public Health (CEPH)
	Doctor of Urban Education in Counseling Psychology	American Psychological Association (APA)
<b>Engineering</b>	Chemical, Civil, Computer, Electrical, Industrial, and Mechanical Engineering (undergraduate)	Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (EAC/ABET)
	Electronic Engineering Technology	Technology Accreditation Commission of the Accreditation Board for Engineering and Technology (TAC/ABET)
<b>Law</b>	Law	American Bar Association and member of the Association of American Law Schools
<b>Liberal Arts and Social Sciences</b>	Music	National Association of Schools of Music
	Bachelor of Social Work	Council of Social Work Education (CSWE)
	Master of Social Work	
<b>Nursing</b>	Nursing (undergraduate)	Commission on Collegiate Nursing Education (CCNE) and approved by the Ohio Board of Nursing
	Nursing (graduate)	Commission on Collegiate Nursing Education (CCNE)
<b>Sciences and Health Professions</b>	Chemistry (undergraduate)	American Chemical Society
	Doctor of Clinical/ Bioanalytical Chemistry	Commission on Accreditation in Clinical Chemistry (ComACC)
	Master of Occupational Therapy	Accreditation Council for Occupational Therapy Education
	Doctor of Physical Therapy	Commission on Accreditation in Physical Therapy Education
	Psychology Specialist (School Psychology)	National Association of School Psychologists (NASP) and NCATE
	Master of Speech Pathology and Audiology	American Speech-Language-Hearing Association (ASHA) Council on Academic Accreditation (CAA)
<b>Urban</b>	Master of Public Administration	National Association of Schools of Public Affairs and Administration (NASPAA)
	Master of Urban Planning, Design, and Development	Planning Accreditation Board

## List of College Acronyms and Abbreviations

**Monte Ahuja College of Business Administration:** *College of Business, Business, Bus*

**College of Education and Human Services:** *COEHS, College of Education, Education, Edu*

**Fenn College of Engineering:** *College of Engineering, Engineering, Egr*

**College of Graduate Studies:** *Graduate Studies*

**Cleveland-Marshall College of Law:** *Law*

**GPA:** *Grade Point Average*

**IPEDS:** *Integrated Postsecondary Education Data System*

**N/A:** *Not applicable or Not available*

**OBOR:** *Ohio Board of Regents*

**SCH:** *Student Credit Hour*

# Book of Trends 2012

[http://www.csuohio.edu/offices/iraa/bot/BOT\\_12.pdf](http://www.csuohio.edu/offices/iraa/bot/BOT_12.pdf)

The Book of Trends (BOT) 2012 represents the continuing commitment of the Office of Institutional Research and Analysis (IRA) to present updated information about Cleveland State University (CSU). A variety of tables and charts provide trend information over a five-year period as well as some key attributes and characteristics of the University for the most recently completed academic year.

The purpose of this publication is to provide readers with frequently requested statistical information used in planning, reporting, and assessment. In order to serve the campus community more effectively, we welcome suggestions and comments.

1. The student information presented in the Book of Trends 2012 is based on the End of Semester files used for Ohio Board of Regents (OBOR) reports unless specifically noted from a different data source.
2. Students exclusively enrolled in English as a Second Language, Study Abroad or other zero credit hour courses are included in the Book of Trends for years 2006-10.
3. Based on feedback received from the campus community, we have removed Table 5.1 in last year's BOT as it was judged to be misleading. Though not included in the Book of Trends, if required, this table is still available upon request.
4. Tables 5.6c & 5.6d in last year's BOT, which represented New Masters and Doctoral cohorts, have been removed after discussions with the College of Graduate Studies.
5. The various Deans' offices provided IRA with a set of grant/highlight information used to produce Table 4.13. IRA limited these selections in order to meet space requirements. This table is not intended to be a comprehensive listing, but merely to reflect some of the interesting activities of our faculty, staff and students.
6. Each year we attempt to provide comparative data to other colleges and universities in Ohio. These comparisons are typically centered on information available from the Ohio Board of Regents' Higher Education Information System (HEI) <http://regents.ohio.gov/hei/index.php>. At the time of publication a few of the tables normally presented here were not available due to some schools updating prior years' data, or changes to the HEI system. Please be aware that the HEI tables presented in this year's book represent various states of completion:
  - a. The data may be complete for the reporting year and can be used accordingly.
  - b. The data may be complete for most institutions, but a few may be unfinalized, in which case only finalized ones are reported or in some cases unfinalized numbers are included but footnoted as such.
  - c. In some cases many schools had unfinalized the type of data being reviewed and in those cases we have simply reproduced the prior year's data with appropriate titles and footnotes.
7. Though this change was highlighted in chapter 3, we feel it bears repeating here: For this year's Book of Trends we have made an adjustment in how we group students within a given department (tables 3.1 through 3.11a). Students with multiple majors are now reported in each major. Tables 3.1 through 3.11a show the number of declared majors within a given department and school, not the number of students. We were only able to apply this new method to Fall 2010 and Fall 2011 enrollment numbers; therefore numbers using the old method are reported from 2007, 2008, and 2009. The rest of the tables in chapter 3 are at the school level and do follow the old rubric of selecting students based on their primary major, as determined by state reporting rules. As such, these tables do represent headcounts.

Please direct questions and/or suggestions to 216-687-4700. The entire Book of Trends series is available online on the IRA website (<http://www.csuohio.edu/iraa/bot/bookoftrends.html>).

We encourage you to reference the web version of the Book of Trends because we can easily make changes/updates if necessary. By the same token, if a URL is provided in the book such as the ones linked to Research Centers & Institutes, the Ohio Board of Regents, etc., we encourage you to refer to the linked site for the most up-to-date information.

We would like to take this opportunity to thank all members of the campus community as well as our graduate assistants for their support and contributions to this publication.
