The Maxine Goodman Levin College of Urban Affairs prepares students with the knowledge and experience to make a difference in their communities. Our graduates hold employment in the public, nonprofit, and private sectors. Levin students gain real-world experience through internships, mentoring, and collaborative projects with our community partners. They build professional networks before graduation, jumpstarting meaningful careers in urban planning, nonprofit administration, public safety, environmental sustainability and economic development.

At Levin, you can learn to build cities, lead communities, and change your environment while immersed in a vibrant and engaging urban landscape.

Learn to change the world at Levin.
