Grassroots Grantmakers Executive Director

**Summary:** Grassroots Grantmakers is seeking an Executive Director to lead its national membership of funders, community-based organizations, grassroots leaders, and other who share its values and are committed to the mission reflected in its “We Begin with Residents” motto. Network members are deeply committed to the belief that what everyday people do together in their own communities is the foundation for building and sustaining strong communities. The Executive Director position, which offers a great deal of work flexibility, is currently 20 hours a week.

**Organization:** Grassroots Grantmakers is a membership organization consisting of people, organizations, and institutions united by their commitment to fostering communities that are welcoming, vibrant, resilient, and just. With roots as a philanthropic affinity group originally known as the Neighborhood Small Grants Network, Grassroots Grantmakers has gradually expanded to focus more broadly on building a field of citizen-sector investors and actors among funders, community organizations, and resident leaders. Grantmakers in the network are committed to funding practices that enable them to “walk alongside” citizen/resident leaders with respect and humility. Nonprofit and civic organizations in the network are committed to placing citizen/resident voice at the center of their decision-making. Grassroots Grantmakers is a resource and advocate for place-based community investments that are citizen-centered. Members value the involvement of people who are most directly affected by community conditions and who are best able to decide how to make positive change in their communities. Grassroots Grantmakers would like to strengthen our ability to provide high-quality, in-depth training and peer skill development opportunities to funders and institutions working with grassroots community leaders.
